1. Zebras, Hearts and Desert Cups

Desert Zebras,
cross the muddy streets of Destinies,
to Nowhere.

Desert Hearts,
they trample us with the Lead Steps,
of the Alienations of the Absurd,
which crush our Love,
from the Horizon of Happiness,
which has remained now,
to Nobody.

Desert Cups,
filled with the Illusions of Life and Death,
are sipped to the last drop,
by the Non-Senses of Existence.

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

2. Apparent Peace

I run to the Horizon of your Heart,
without knowing,
how much Desert of Thoughts,
can hide,
through the homeless Days,
of the Alienations of the Absurd,
from which you created,
an oasis of apparent Peace,
what betrays your Glances,
every time,
when it is courted,
by the Illusions of Happiness,
Life and Death,
of the Pains,
from the Dawns frozen by Smiles,
crushed by the Night,
of the Loneliness.

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

3. For the homeless Days

Zodiac signs willing to bribe Time,
only to receive new qualities,
for the homeless Days,
which weep on their doorsteps,
without being able to help them in any way,
because they always oppose,
the Alienations of the Absurd,
of the Illusions of Life and Death,
which send their Non-Senses of Existence,
to forbid them any donation,
which does not contain,
the initials of the Vanity, on it.

SORIN CERIN
- THE ALIENATION OF THE ABSURD -

4. For the Souls of our Words

Clouds of Dreams,
hit the Hearts of Lead,
from the decomposed and alienated Glances,
of the Absurd,
what started to snow deaf,
over the Great Silences,
snowed by the Snow of Destinies,
from which the Illusions of the Non-Senses of Existence,
they spin lumps of Pain,
as heavy and frozen as possible,
for the Souls of our Words,
who have become,
the Snowmen,
of the Nobody,
who melt,
into every Eternity of Moment killed by Time,
for to remain,
the Tear of a Memory of Despair.

SORIN CERIN
- THE ALIENATION OF THE ABSURD -

5. The Flames of the Empty Days

The Flames of the Empty Days,
they burn us the Cathedrals of the Saints frozen,
by the humiliations of our kneeling,
to the carved faces of Debauchery,
from the Bitter Stone of Despair,
which we further polish,
with the cloth of Obedience,
to a Divinity,
gilded with the Alienation and the Absurd,
taken out with sweat,
by the wrinkled Foreheads,
of the Eternities of Moments killed
by the deep mines of Darkness,
where we hoped,
to find in the end,
the vein of Divine Light,
which, to give us
the identity from before the World,
of the Illusions of the Non-Senses of Existence.

SORIN CERIN

Philosophical poems

6. Alienation and Absurd

Smoldering embers of almost faded Glances,
which have grizzled, the Eyes of Sky confused,
of the Wrinkles,
through which flow,
the streams of Tears of the Words,
which we sail,
hoping that we will be able,
to lift the sails of Happiness,
on the Horizons which no longer hang,
inert and devoid of strength,
on the massive and sad Walls,
of the Cathedrals of the Illusions of Life and Death,
to which we worship,
the whole Alienation and the Absurd,
which flows through the veins of the Pain,
of the broken Genes,
of the Mistakes of Creation,
of the Original Sins,
with which we were endowed,
by the Vanity.

SORIN CERIN

7. Masks built in the physiognomy of Indifference

Masks built in the physiognomy of Indifference,
fall chaotically over the tangled hair,
in knots of Dreams,
of the Empty Days,
which do not oppose,
to receive them in their homes,
forgetting that we were there too,
with the whole Sky of Words,
so heavy,
that it collapses,
over the downcast and sad Looks,
of the Loneliness,
which Nobody, no longer took her out,
except for us,
at the dance of the Eternities of Moments,
where we spun,
until Time made us dizzy,
for to remain,
without understanding why,
only with the Vanity,
which gave us descendants,
many enough,
so that we fill,
the whole Alienation and Absurd, of the World,
with them.

8. To demonstrate for their rights

Spicy Dawn,
stings the Sky of Words,
full of the spices,
of the Alienation and the Absurd,
which can barely be exclaimed,
on the Lips of Pains,
which froze,
from the Cold of Despair,
at the closed gate of Hopes,
which sleep deeply,
at this hour so early in the morning,
of the Vanity,
from which the Nobody's Calendars,
make new Empty Days,
so polished,
with Non-incidentally Happenings,
so that the Zodiac signs went out into the street,
to demonstrate,
for their rights,
to Free Speech,
grossly violated,
by the corrupt Destinies,
of the Illusions of Life and Death.

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

9. Which shatter

Bridges of Thoughts,
so frozen,
by, the alienation of the Empty Days,
of the Absurd sick,
of, the Nausea from us,
that they became brittle,
when we stepp over their bodies,
which shatter,
at every corner, of Question,
addressed to the Original Sins,
which will not know,
never the Answer,
killed by the Destiny,
of the Illusions of Life and Death,
of an Incarnation,
in the Mud of Vanity,
which she modeled for us,
the Mistake of Creation,
in the image of Pain,
of a God of No One,
who hides his face,
even from the Icons of the vain Hopes,
being convinced,
that he wouldn't fit,
not even there.

SORIN CERIN

10. To the saving Death

The colds of Loneliness have intensified,
over the thick and heavy clothing,
of the Lead Clouds,
which wander on the Sky of Words,
which cannot be uttered to Nobody,
because they would slip,
on the ice of the Empty Days,
by ourselves,
and would break the neck of Dreams,
leaving us the Eternities of Moments,
orphaned,
of, their own Time,
so exhausted,
that he was not able,
to cross us, not even,
the Zebra of Destiny,
to the saving Death.

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

11. From before to be searched the Pain

Impenetrable distances,
they are lost in ourselves,
Dice rigged by Words,
are collapsing into them,
Commas of Embers,
of the last,
swan songs,
float in the drift,
over the vain Dreams,
of some Non-incidentally Happenings,
in which the Destinies have been clothed,
by the Illusions of the Non-Senses of Existence,
so as never to become again,
we, the ones from before,
of to be searched the Pain,
through the Dust of the falling stars,
of the Death.

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

12. Seem fresh out from the Pain Factories

Cold sweats,
of vain Hopes,
what they can barely crawl their,
Steps of the Tears,
through the Cemeteries of Words,
of the Creation,
they build us Walls,
as massive and heavy as possible,
of Original Sins,
which seem fresh out,
from the Pain Factories,
of the Mistakes of Creation,
to protect us from ourselves,
in case which,
we would throw ourselves,
in the boundless abysses,
of the Souls,
trying to we escape,
from the Alienation and the Absurd,
of the Illusions of Life and Death,
Happiness and Hierarchy.

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

13. The Alienation of the Absurd

The bridges of bitter stone,
of the Darkness,
from the Alienation of the Absurd,
are trampled by more and more Steps,
of the Despair,
on their way to a Death,
of the Illusions of the Non-Senses of Existence,
by whose plucked hair,
they hang their last Prayers,
for Redemption,
addressed to the Mistakes of the Creation,
of Original Sins,
which they were forced to carry,
on the shoulders weakened by power,
of the vain Hopes,
on the Zebra of Life,
of the Nobody.

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

14. Through the Blood scorched by the Desert

Cold and unwelcoming shores,
of the Illusions of the Non-Senses of Existence,
they get lost in the edges of the Horizons of Pain,
clothing the Waters of Life and Death,
with the Despair,
of so many shattered Dreams,
drowned through the Tears of Destinies,
what, they were still hoping in vain,
to be saved by their own Thoughts,
from the Alienation of the Absurd,
which were leaking,
through the Blood scorched by the Desert,
from the veins of the defective Genes,
of the Mistakes of Creation,
of Original Sins.

**15. The Lead of the Mistakes of Creation of the
Alienation of the Absurd**

Lost,
among the Hearts of Desert,
of the Glances,
burned and decomposed,
by the Lead of the Mistakes of Creation,
of the Alienation of the Absurd,
which presses them,
the Divine Light of Words,
so deep in the abysses of the Souls,
that it ends up being crushed,
even the Subconscious Stranger,
of the Absolute Truth,
which would have been the only bridge,
toward the Memories of the Future,
which we could have crossed it,
to save us,
from the Illusions of Life and Death.

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

16. A decent outfit

The buttons of Time,
have begun to fall,
from the shirts of Destinies,
into the broken Hourglasses,
of the Future decomposed,
by the Alienation of the Absurd,
without being able to close us,
with enough Deception,
the collars of swan songs,
of the Illusions of Life and Death,
which we knotted,
to the tie of Despair,
in order to succeed to display,
a decent outfit,
to the Vanities.

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

17. They made from the Alienation of the Absurd

Breaths of Commas,
abandoned and sad,
they carry on their sick shoulders,
of the Penances,
the Illusions of Life and Death,
which have made,
from the Alienation of the Absurd,
Cathedral of Dreams,
at which to pray,
the Knees of Loneliness,
by ourselves,
lost in the abysses,
of the Hearts of Desert,
crushed by the Pain of the Walls,
with the smell of mold,
of the Eternities of Moments,
killed for no reason,
by, the Time of the Nobody.

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

18. Remnants of Smiles thrown

When the Subconscious Stranger,
has found from the table of a Love,
which was no longer among us,
Remnants of Smiles,
thrown nonchalantly,
through the Garbages of the Alienation of the Absurd,
no matter how much he tried to separate them to us,
from the Rags of Vices and Prides,
which have pressed them into the dumpsters of the Past,
for to return them to us,
the Illusions of our Life and Death,
they did not receive them,
on the ground that they would have been too noisy,
and would have bothered the Despair,
which anyway,
it didn't think they could ever be used again,
until they were bought by other Existences,
and we saw them with the Eyes of Sky of the Dreams,
how bright they could be,
when they were worn,
in the Glances of the Streets crowded,
by the Hopes of other Worlds.

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

**19. On the face of the Alienation of the Absurd of
our Steps**

Falling stars dust,
blind us the Eyes by Pain,
of the Dreams,
from which we build our Future,
which seems to be Nobody's,
but we know that it is ours,
and must be thrown in the Trash,
of the rigged Dice,
of the Consciousness,
in order to recycle from us,
the Vanity,
of the Living Statues of Compromises,
of the Illusions of the Non-Senses of Existence,
in whose asylums,
we have to live our Life,
drowned in the Loneliness of the Tears of Sky,
of the Hopes,
which trickle,
on the face of the Alienation of the Absurd,
of our Steps.

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

20. We ascend

We ascend,
Steps of Sky,
on which melt,
the wax bodies of the Words,
gnawed by the Divine Light,
of the Endlessness of the Dreams,
in whose breath,
we want to build Cathedrals of Storms,
which to shatter us the Funeral World,
of the Alienation of the Absurd,
of the Illusions of the Non-Senses of Existence,
and to free us,
from ourselves,
those we have become,
the Lead Icons,
of the Pain,
which crush the Steps,
of any Love,
which would like to cross us,
the decomposed Zebra of the Good and Evil,
of our Lives.

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

21. We want to rediscover their Breath

Dawns crucified on the tombs of Dreams,
from the Cemeteries of Questions,
of the Answers lost,
through the Zodiac Signs of No One,
to which we want to rediscover them,
the Breath,
from before being,
the Illusions of Life and Death,
of the endless funeral processions,
of Empty Days and gloomy,
which are heading, depressed,
towards the World of the Afterlife,
crossing the Zebras of Words,
more and more gnawed and erased,
sipped from the bitter Hearts,
of the cups of desert,
which belong and now,
after so many struggles with ourselves,
to the Blood decayed,
by the Alienations of the Absurd,
of the Mistakes of Creation,
of Original Sins.

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

22. To her last drop of venom

Waves of Desert,
they hit us the Shores of Thoughts,
which come off,
from the rocks of Questions,
along with Freedom
which falls deaf,
in the Ocean of the Alienation of the Absurd,
from which are drawn,
the Illusions of Life and Death,
on whose wings,
flew us, the Word of Creation,
of the Mistakes of Creation,
of Original Sins,
when he kidnapped us from the Star of Immortality,
of the Divine Light,
to incarnate us in the Despair,
of a Consciousness of Pain,
from which we must,
to shape our cups of desert,
of the Future,
in order to sip,
the Water of Vanity,
to her last drop,
of venom.

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

23. Creative Energy

Life is an expensive bill,
which we must pay, all of us,
after the Pains have consumed us,
the whole Creative Energy,
of Illusions of the Non-Senses of Existence,
which have laid us,
at the heavy soles of Despair,
the Destinies,
clothed in the thick and dense cloaks,
of the Alienation of the Absurd,
so as not to freeze,
on the Cold of the Cemeteries of Words,
which is consuming us,
the Eternities of the Moments,
in order to be as alienated as possible from ourselves.

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

24. Draws its sap and vigor

Drops of venom,
are flowing us,
from the burnt bodies,
of the Words,
on the rotten tongues,
of the corpses of some decomposed Days,
on which the funeral processions,
of Questions,
take them to the Cemeteries of Answers,
of the Hearts of Desert,
of the Glances petrified ,
by the Alienations of the Absurd,
accommodated through the hospices of the Despair,
of this World of Vanity,
from which the Pain,
helped by the Mistakes of Creation,
draws its sap and vigor,
for the Future.

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

25. Under the weight of the Horizons of Loneliness

How much sand of Days,
do we still have to drain?,
in the Hourglass of Expectations,
where we are going to meet,
with ourselves?
found on the sad thresholds,
of the Alienation of Self,
of which we have struck,
the Hearts of Desert,
which have fallen crushed,
under the weight,
of the Horizons of the Loneliness,
on which we have built our Souls,
to whose icons,
prays even today,
the Alienation of the Absurd,
of a Forgetfulness.

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

26. We roll on the heights of Despair

We are born
snowballs,
so as to we roll,
on the heights of Despair,
from the mimicry of Living Statues,
lost in the deserted streets of the Hearts,
from which the Pains created their,
seductive clothes,
which to melt us,
the Souls,
of Snowmen,
which we wear them,
from a Non-incidentally Happening,
at the tie of Destiny,
of the Alienation of the Absurd,
which strangles us so much,
with the Alienation of ourselves,
that we are trickling,
in streams of Tears of the Forgetfulness,
on asphalt thawed by any inhibitions,
which it had them at the Time,
when it was snowing, with us,
the Predestination of the Illusions of Life and Death.

SORIN CERIN

27. Therefore I beseech thee, O Lord

We were so much embers,
brought from the Star of Immortality,
of a Love,
that, we never thought,
to drown the Future,
at the soles of Loneliness,
which crushed us,
the Future,
which we couldn't save it anymore,
even though we begged,
even the Alienation of the Absurd,
of the Illusions of Non-Senses of Existence
to help us,
to have him by our side,
undrowned in the Tears of the Despair,
of some Lead Memories,
which to trample us in every moment,
the Days of Pain,
until exhaustion,
therefore I beseech thee, O Lord,
pray at the Mistakes of Creation,
to leave us together,
no matter how much they oppose thee,
Your own Original Sins.

SORIN CERIN

**28. We barely succeed to hold the umbrella of the
Feelings**

Wandering,
among remnants of Hopes,
we barely succeed,
to hold,
the umbrella of the Feelings,
together,
by the gusts of the Cemeteries of Words,
of the Alienation of the Absurd,
which is raining us the Present,
with the cold and indifferent drops,
of Thoughts that make us sick,
the increasingly rare Steps,
which tread towards the Dreams of Fire,
of the Love,
which have begun to die out,
of Loneliness.

SORIN CERIN

29. To the sunny Skylines of Happiness

Dress me, Lord,
with the mantle of Love,
to be able to catch,
the cold and sad Horizons,
of the Despair,
which embrace the Loneliness,
of this World,
of the Alienations of the Absurd,
on whose shoulders,
you left all your lead gray,
of the Mistakes of Creation,
forcing her to give it to us,
every time,
when we have the courage to look,
to the sunny Skylines of Happiness.

SORIN CERIN

30. Goodbye Love of my Life

Goodbye Love of my Life,
I didn't think you would become,
just a Horizon,
of the Heart of Desert,
an endless Sigh,
on which to float,
to Nowhere,
the Absurd of the Alienation,
of the Loneliness,
from the heights of Despair,
on which can barely reach,
even the Cemeteries of Words,
said in vain,
by the Empty Voices,
of the Days of the Nobody,
which wander,
on the streets crowded with Nothings,
of the Destiny,
which urges me to tell you,
Goodbye Love of my Life,
to we let the Memories of the Future,
to wash us away the bitter stone of grave,

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

of the Dreams,
which we carried,
with us,
through all the Tears of Happiness,
which we received as a gift from Love,
which no longer has a passport,
for the Destination of our Life.

Goodbye Love of my Life,
I am again a Living Statue,
of the Illusions of the Non-Senses of Existence,
forced to cry,
for the rusty and indifferent coins,
of a few Moments of ice,
thrown into the cups of desert,
of Forgetfulness,
by the Pain,
which I have to drink to the end.

31. The Alienation of the Absurd of Happiness

Crowded streets,
with Walls of Glances,
which are collapsing,
in the cold and insalubrious Thoughts,
of Loneliness,
they ask me the exact time,
of Despair,
which accustoms to visit my,
Alienation of the Absurd,
of the Happiness,
received as a gift,
from the Illusions of Life and Death,
which advise me to go forward,
on the dusty road of the falling stars,
from the ditches of the drunkenness of Empty Words,
uttered by the Destiny,
which will prove to be of the Nobody,
through the Cemeteries of Dreams,
of the Vanities.

32. To know from afar

Orgies of Tears,
wash away the threatening Walls,
of the Darkness,
which overflows,
over the candles of the Memories,
from the graves of Dreams,
buried in the dust of Oblivion,
from the Cemeteries of Words,
of the Mistakes of Creation,
of the Original Sins,
which decompose the corpse of Time,
in Empty Days by ourselves,
clinging to the Alienations of the Absurd,
to which we are condemned,
by the Illusions of the Non-Senses of Existence,
for the guilt,
of knowing from afar,
Love.

**33. Among the deaf cries of the Illusions of
Happiness**

Rotten dice of Deceptions,
strangle our Hopes,
which always fall,
on the winning numbers,
of the Alienations of the Absurd,
of some Destinies,
with dates of birth,
what they would have wanted,
to never exist,
among the deaf cries,
of the Illusions of Happiness,
from which we are invited to serve ourselves,
by Life and Death,
with as succulent slices as possible,
of Pains,
despite the Great Silences,
of the Subconscious Stranger,
who boils his Loneliness,
through the abysses of our Souls.

SORIN CERIN

**34. Through the Markets of Vices, Prides and
Compromises**

Through the Markets of Vices, Prides and Compromises,
of the Alienations of the Absurd,
you find every hour,
Thoughts, slaves of the Vanities,
polished with falling stars dust,
gathered from the ditches of Deceptions,
about which it is said,
that it would be Happiness,
but it is a counterfeit,
without any value,
created in the Glances of Lead,
of the Illusions of Life and Death,
eager for strong sensations,
which still sell us,
on the Stalls of Despairs,
bouquets of vain Hopes,
which to they chop finely,
alongside our Souls,
to which it gives a taste,
so enticing,
that none of the Pains,
invited to the tables of Destinies,
cannot refuse them.

35. Lift me up beyond the dirty Heavens

Wings of Angels,
from the Glances of Eternity of the Moment,
please,
lift me up beyond,
the dirty Heavens,
of this World,
of the Illusions of the Non-Senses of Existence,
which no matter how much I wash them,
I will never be able to clean them,
by myself,
in order to be able to embrace,
in the arms of my Times,
your Love,
of mermaid, which, you swim through the waves of
Destiny,
to find the Shore of my Life,
which is incessantly collapsing,
in the Hourglass of Despair,
to show the exact hour of the Pain,
of the Alienations of the Absurd,
which clothes us,
the Loneliness.

36. You were a star

You were a star,
what I never thought would fall,
shattering,
in the Tear of the lost Glance,
of the Despair,
which wanders,
on the streets of the Hearts of Desert,
of our Souls,
crucified,
on the rocks of Loneliness,
from which the Mistakes of Creation,
of Original Sins,
have carved the faces of Pain,
when they decided,
that we to incarnate,
in the Mud of the Alienation of the Absurd,

I understand you Delusion,
why you hid your identity,
at the entrance on the Realm of our Destiny,
which would have received you,
with open arms,
if you had not framed,
the Alienation of the Absurd,
on the Walls of Despair,
which to become for us, Icon of Love,
to which we to pray,
even the Memories of the Future,
to never come again,
from the Star of Immortality,
because were enough for us,
the Illusions of Happiness,
which have promised us that they would be Endless,
and which we walked them,
on the wide boulevards,
of the Illusions of the Non-Senses of Existence,
without we knowing,
that our Subconscious Stranger,

38. Required us to believe strongly

Thorns of Words,
sharp enough,
which we utter among the lead flowers,
of the Smiles,
given to the Cardboard Wreaths
of the Illusions of Salvation by ourselves,
which we always wear them,
at the arm of Delusions,
which crucify us on the graves of the Glances,
which claim,
that they escape us free of charge,
without giving Time anything,
of the Empty Days of Vanity,
made by the hand of the Mistakes of Creation,
of Original Sins,
in which we incarnated our Pain,
which required us to believe strongly,
in the Alienation of the Absurd,
as being our Only chance of salvation.

the Absurd**

Brothels, of Dreams,
which claim,
that they can talk,
with the Subconscious Stranger,
of the Absolute Truth,
at the Miracle-Working Icons,
of the Alienation of the Absurd,
from where they still smile at us today,
opening wide the windows,
of the Loneliness by ourselves,
lost among,
the Non-Senses of Existence,
which can be found at any hour,
on the stalls of the decomposed Glances of the Days,
from the store built by Death,

every time and without a doubt,
Everything.

Clenched smiles,
with the fangs in the Compromises,
more and more undressed,
of the Illusions of Happiness,
to whom the Non-Senses of Existence,
they often give them,
the lead flowers,
of the Cups of Desert,
from which we drink, thirsty,
the Alienation of the Absurd,
at the crossroads of the vain Dreams,
fallen from the Skies of Words,
on the gray Horizons of Despairs,

breaks its Angel Wings,
every time it meets,
with the dark abyss from ourselves.

Dark and rusty fences,
of Compromises,
guard the long corridors,
of the death of the Characters,
forcibly adorned by the Illusions of Happiness,
with the Icons of some Prides and Vices,
which ascend the steps of the Hierarchies,
of the Non-Senses of Existence,
until they meet,
only rarefied Heights,
from the Sky of Nobody,
of the Barren Days,
of any content,
what were sent,

What purpose would still have the Universe to exist,
if it couldn't breathe,
the Days of your Glances?,
on busy streets,
with hasty Moments,
of the Destiny,
which want to catch the train of Love,
from the roses station,
of the enchanted Smiles,
of the Eyes of Sky,
in which we found,
the Eternity of the Memories from the Future,
where we lived before,
another Existence together,

You are so beautiful Love,
even now,
when bind us, only Ghosts of Words,
which discover their Shadows of Meanings,
on the cold and moldy Walls,
of the Cathedrals of some Wanderings,
at whose Altars of Searches,
and Questions without Answers,
we pray, the Empty Days, of ourselves,
to gnaw their Knees of Thoughts,
on the inert cement,
of the Hearts of Desert,
from the Icon of your Smile,
through which it sprang us,
the Blood of the Sunrises,
of so many Feelings,

Stained with the dense fog,

the Star of Immortality,

awaits us burning the Universe,
of our longing,
to keep the Fire of Eternity burning,

are rising everywhere,

of the falling stars,
from our bodies,
which meander through the kingdom of Death,
by ourselves,
until the birth,
of the new Pains,

from unctuous maternity wards,
of the Time, killer,

Deserted Regrets,
quickly build,
Cathedrals of Reproaches,
to the deeper and deeper Wrinkles of Indifference
to the youthfulness,
of the profound Smiles,
of the sincere Glances,
which flew on the Wings of Divine Light,
of the Guardian Angels,
of the Immortality,
from the increasingly cold and expressionless arms,
of the Despair,
always accompanied,

still hiss through the broken windows,
of the Despairs,
of so many locomotives,

I asked you Love,
why the Non-incidentally Happenings,

have decided to find us,
in exactly the same place,
where the Alienations of the Absurd,
of the Illusions of Happiness
give the exact hour of the Pains,
deep and penetrating,
of the Loneliness,
and of the alienation from ourselves?

Maybe because in the World beyond us,
where the Star of Immortality shines,
we have been together for an Eternity,
on which none of the Non-Senses of Existence,
can't take it from us,
because it is in the Genes of the Blood of our Endlessness?

by the Frenzy of Gambling,
with the Dice of Despair,
falsified by the Alienations of the Absurd,

Walls of Words,

of the Absurd,
lost through the patched pockets with Pain,
of the Separation,
from the Identity of the Shores of Happiness,
on whose Sand of Dreams,
we have often written,
the name of Love,
without knowing,
about the Storms of Dark Thoughts,

77. Between the Good and the Evil of the Vanities

Empty and homeless Days,
accompany the coffins of the Words,
toward the Cemeteries of the Alienations of the Absurd,
where are buried,
the Dreams,
which were with us,
somewhere - sometime,
beyond us,
through the Memories of the Future,
to whom were broken the Wings of Guardian Angels,
when they struck,
the Land of our Incarnation,
in the Illusions of Life and Death,
between the Walls of which,
we cross our Pain,
on the Zebra of the Mistakes of Creation,
of Original Sins,
which drive us away,
between the Good and the Evil,
of the Vanities,
any attempt to find us again,
the Subconscious Stranger,
of the Absolute Truth.

Sorin Cerin [s'ɔ:ɪn s'ɛɪn], [s'ɔ:ɪn s'ɛɪn], [s'ɔ:ɪ_n s'ɛɪ_n] born **Sorin Hodorogea** (*born November 25, 1963, Baia Mare, Romania*) is a Romanian Philosopher and Logician, creator of **The Philosophical Works of the Coaxialism**, Essayist and Author of the monumental work entitled **Wisdom Collection**, considered one of the most prominent thinkers of the gnomic genre in the world also a remarkable Existentialist Poet of the 21st century and Novelist of **Balkan** and **Greek** origin. and previously published in various publishing houses, to be later reunited under the aegis of a single monumental volume, entitled **Wisdom Collection**. Many philosophical aphorisms from **Wisdom Collection** are selected in various publications or prestigious anthologies of the world. The entire philosophical work that forms **The Coaxialism**, from certain stages of its conception, but also the aphoristic works from the **Wisdom Collection**, from certain stages of their conception, were reunited in other collections of philosophical-religious works, much wider, combining philosophical studies with philosophical aphorisms, such as collection entitled **Bible of the Light**. In 2014 Sorin Cerin published the book entitled **The Illuminati Bible**, which is a continuation of his first book **Bible of the Light**, to which new volumes of aphorisms are added, namely, **Illumination aphorisms, The Sin aphorisms, Paradise and Inferno aphorisms, Freedom - aphorisms**, etc. In

Sorin Cerin defines the term of **Coaxiological Psychology** as a result of the development of **The Transcendental Coaxiological Mathematics** whose foundation is based on transcendental numbers and functions, on **Coaxiological Logic** but also on the principles of **Coaxialism**. **Coaxiological Psychology** being not only the future psychology in the sense of Sorin Cerin, which will be applicable to the human being but also to **Artificial Intelligence**. After finishing high school, he moved to Bucharest, the capital of Romania, where he attended the Aldo Moro Institute of Italian Language and Culture. In 1987 he married the lawyer Mariana Cerin , then a student, and agreed to take her name Cerin.He motivates this gesture by the fact that he used the name Cerin as a literary pseudonym long before.The name Cerin taken in 1987 became from a literary pseudonym the official name worn in the identity documents of Sorin Cerin. About this aspect Sorin Cerin state in the biographical notes at the foot of his book:Let's dance love - Philosophical poem,pages 128-142, to biographical notes.

returned to Romania, believing that the old communist structures were no longer so influential, but he was wrong, because he chose to leave Romania again, but this time as a press correspondent for Australia. In Australia, Sorin Cerin lives in Melbourne and Brisbane. While Sorin Cerin broadcast news about the former members of the Romanian Securitate who were dealing with drug trafficking in Melbourne at the time, Sorin Cerin is threatened with death, a fact recorded by the newspaper Ziua, under the title: **The correspondent of the newspaper Ziua from Australia is threatened with death by Romanian ambassador to Australia.** Sorin Cerin transmitted for the first time from Australia, news about the former members of the Securitate of the dictatorial regime of Nicolae Ceausescu who were dealing at that time with the abusive sale of the largest gold deposit in Eastern Europe that belonged to Romania, the one from Roșia Montană or with drug trafficking., Romania's ambassador to Australia at the time, Ioan Gâf Deac the one who threatened Sorin Cerin with death, was part of the former Securitate. of Nicolae Ceaușescu. Due to these incidents, the respective ambassador was fired, always trying to take revenge on Sorin Cerin through various traitors employees of the Romanian secret services. In 2000, Sorin Cerin married the engineer Dana Cristina Gorincioiu. Starting with the year 2000, Sorin Cerin dedicates himself entirely to literature and later to philosophy, leaving journalism forever. However, political forces loyal to the old communist dictatorship have always harassed Sorin Cerin, including on the English Wikipedia, or Romanian Wikipedia, using as intermediaries various users, traitors of the Romanian secret services working undercover on Wikipedia. **These are the reasons why is Sorin Cerin censored by Wikipedia.**

Censorship and Discrimination

Sorin Cerin is considered by specialists as one of the most important poets and philosophers of Romanian origin, in the most prestigious cultural publications is banned on Wikipedia. From 2006 until now, the article Sorin Cerin is restricted, being banned on English Wikipedia. No one can ask for the recovery of this article, only administrators can do this. Although in these many years Sorin Cerin's notability has increased considerably through the countless reviews published in the most prestigious publications and signed by the most important specialists in the field. The recovery of Sorin Cerin's article is protected from so-called vandalism. In fact, it is a disguised way of not letting users demand the recovery of the article on the grounds that Sorin Cerin is long the most notable writer in Romania. We are talking about recovery because in 2006 the article Sorin Cerin was deleted for unrealistic reasons of notability by some Romanian users, who hated Sorin Cerin, while collaborating on the English Wikipedia. Immediately after the onerous deletion made by the Romanians, on the English Wikipedia, **the article was urgently replaced by American users on the grounds that it turned out that the article meets all the conditions of notability.** Less than a week after recovery of the article Sorin Cerin on the English Wikipedia, an American user Jmabel who posted photos with him on the streets of Romania, who writes on his user page about his stay in Romania, immediately requested the deletion of the article Sorin Cerin and the placing of this article under the interdiction of being able to be recreated. Thus, for many years, this article is banned and cannot be recreated by users. Ambassador Ioan Gaf Deac's people, traitors to the Romanian secret services, also misled users of other wikipedias in other languages. Thus,

they managed to deceive the users of the wikipedias in French, German, Portuguese, Spanish, Italian and others, that the article Sorin Cerin from their wikipedias would be spam and therefore had to be deleted. This lie bore fruit, though the truth was quite different.

Sorin Cerin considered in his books dedicated to Wikipedia and entitled, the first book: Procesul Wikipedia- Drepturile Omului, Serviciile Secrete si Justitia in Romania (The Wikipedia Process - Human Rights, Secret Services and Justice in Romania) and the second book: Wikipedia: Pseudo- encyclopedia of the lie, censorship and misinformation, that the Wikipedia project is wonderful only that it can be perceived by certain interest groups in a weapon contrary to the causes for which it was created.

Sorin Cerin shows in his two books about Wikipedia the way in which the traitors of the Romanian secret services, who cannot accept the alliance with Nato and the United States, perverted the true purposes for which Wikipedia was created. Sorin Cerin was among the

initiators who refounded a democratic party in Romania, which did not agree with the communist doctrine, communist secret services in Romania, called Securitate, who were later re-employed in Romania's new Secret Services. after the December 1989 Revolution. These members of the Romanian Secret Service never accepted the fact that Sorin Cerin was among the initiators who refounded a democratic party in Romania, which did not agree with the communist doctrine, based on dictatorship. That is why they did not accept that Sorin Cerin be seen by the general public at his true value, all those who would have wanted to request the recovery of the article Sorin Cerin, although they would have had every reason to prove their notability, could do nothing because the article Sorin

Cerin is forbidden to be recovered. Even the author Sorin Cerin has written and published dozens of books, even if dozens of literary critics, specialists have written about his work, even if all these are new things compared to the known ones. In 2006, anyone trying to recover the Sorin Cerin article is stopped from recreation, on the grounds that the Sorin Cerin article is protected from vandalism. In fact, protection against so-called vandalism is vandalism in itself, an ugly censorship that was once practiced in the darkest dictatorships of mankind.

Among these we mention: **Homer, Marcus Aurelius, François de La Rochefoucauld, Baltasar Gracian, Arthur Schopenhauer** and many others, while in Romanian literature since the chroniclers of the XVII and XVIII century, to **Anton Pann, Constantin Negruzzi, Mihai Eminescu, Nicolae Iorga, Garabet Ibrăileanu, Lucian Blaga and George Călinescu.**

In the philosophical field, **PhD Henrieta Anisoara Serban** researcher at the Institute of Philosophy of the **Romanian Academy**, writes a detailed review of the **Coaxialism**, as Sorin Cerin's philosophical system is called. **Henrieta Anisoara Serban** remarks about the **Coaxialism**, in the year 2007, that: "**This book represents an audacious contribution to contemporary philosophy. Professor Theodor Codreanu published in the magazine **Oglinda literara nr.167, pages 11283**-the article entitled **Dualism as a temptation of rationalism**. dedicates to Sorin Cerin's philosophical system but also to his aphoristic work, which he claims would contain aphorisms that will face time, an article that PhD Professor **Theodor Codreanu** will develop in his book entitled **Anamorphoses**, published in 2017 by Scara publishing house in Bucharest, pages 130-147, ISBN, 978-606-94011-9-4., a recognized academic work, where an entire book chapter is dedicated to **Sorin Cerin**. **Theodor Codreanu** remarks about the Coaxialism that: "**... the Coaxialism seems to be bordering on paradoxism, but it is much more than that, approaching, rather, the dualistic philosophical and religious systems, culminating in Gnosticism and, at first sight, in Cartesian rationalism...**" end quote.

In the field of philosophical poetry

In 2015, eLiteratura publishing house, another prestigious publishing house in Romania, published five new volumes of philosophical poetry for Sorin Cerin, books edited by the publisher Vasile Poenaru, within a project developed by the Writers' Union of Romania. Regarding the poetic work also worth mentioning are the Professors Alexandru Cistelean, considered the most important contemporary critic for poetry by the other literary critics of Romania. PhD

Alexandru Cistelean at the **Petru Maior University of Târgu Mureș** considers under the title, **Between reflection and attitude** in the *Familia* (magazine) nr.11-12 November-December 2015, pag.16-18, **that for almost centuries Romanian literary critics say that philosophical poetry is very difficult to achieve and that many have tried in Romanian literature to write philosophical poetry in vain because they failed, but Sorin Cerin is the only one who has successfully succeeded, being for the first time in Romanian literature when philosophical poetry is truly a success. For this reason Sorin Cerin is a unique top, which can hardly be matched,**because says

Alexandru Cistelean:".One approach among all risky - not of today, yesterday, but from always - because he tend to mix where not even is, the work of poetry, making a kind of philosophizing versified, and willy-nilly, all kinds of punishments and morality. Not anymore is case to remind ourselves of the words said by **Titu Maiorescu**, to **Panait Cerna**, about "**philosophical poetry**," because the poet, them knows, and, he very well, and precisely that wants to face: the risk of to work only in idea, and, of to subordinate the imaginative, to the conceptual.Truth be told, it's not for Sorin Cerin, no danger in this sense, for he is in fact a passional, and never reach the serenity and tranquility Apolline of the thought, on the contrary, recites with pathos rather from within a trauma which he tries to a exorcise, and to sublimates, into radical than from inside any peace of thought or a reflexive harmonies.Even what sounds like an idea nude, transcribed often aphoristic, is actually a burst of attitude, a transcript of emotion - not with coldness, but rather with heat. " end the quote.

We must also remember the PhD Professor from **Babeș-Bolyai University in Cluj-Napoca**, **Ștefan Borbély**, who considers in Romanian magazine **Contemporanul** (The

Contemporary), no. 10, October 2020, on page 5, under the title, **Gnoses of Sorin Cerin** that: "Sorin Cerin's poetry contributes, through each new verse, through each new poem or collection, to the construction of an **autarchic system** having as its origin **Manichaeism**, and that the poet constructs, with fervor and syntactic skill, an anti-world (the world of "cemeteries of words", of frozen meanings, the world of "sharp shards" and **the Absurd**), which, in the end, is meant to test his faith and to turn him to the redemptive horizon of **the Absolute**." end the quote. Definitely worth mentioning as well the PhD Professor **Elvira Sorohan from Alexandru Ioan Cuza University**, which attributes the literary work of Sorin Cerin as belonging to existentialism, in the review of Convorbiri Literare (Literary Talks) in the September 2015 issue, pages 25-28, entitled: **An Existentialist Poet of the 21st Century**. Professor Elvira Sorohan in the **article An existentialist poet from the 21st century** published in Convorbiri Literare (Literary Talks), refers to an article written by Magda Cârneli regarding Trans-poetry, and published in România Literară (Literary Romania) where it is specified what is the true, brilliant poetry, the great poetry which the poets of the last century covet. **Elvira Sorohan stated in the article written by her that only Sorin Cerin fully managed this to create the great and brilliant poetry called, Trans-poetry. Moreover, Elvira Sorohan mention that Sorin Cerin does not lack the inspiration coveted by other poets who should follow his path.** Many others Professors from different Universities, such as Maria-Ana Tupan, which said that: "The lyrical meditations of Sorin Cerin have something from the paradoxical mixture of despair and energy of the uprising from Emil Cioran's philosophical essays". Many other professors, prestigious literary critics have written about

Sorin Cerin. Among them would be: Cornel Ungureanu, Mircea Muthu, Ion Vlad etc.

Sorin Cerin's works has been reviewed in the most prestigious publications of Romania, such as **Contemporanul**, **Convorbiri Literare** or **Familia** (magazine), but also in publications published in other countries or continents, such as the cultural magazine **Destine literare (Literary Destinies) which appears in the United States and Canada**, where Sorin Cerin is published in each issue of the magazine, in series, starting with issue 8 and ending with issue 4 only to appear sporadically in the other issues such as in the April - May issue 5 of the magazine Sorin Cerin is also published in the prestigious multilingual culture magazine that appears in France, entitled, **Levure Literaire**

In 2021 the French publishing house **Stellamaris** publishes in France the collection of poems signed by Sorin Cerin, which is entitled:: **Le non-sens de l'existence et de l'éternité** (The Non-Sense of Existence and Eternity)

This collection, appreciated by French literary critics as a success. The literary critic who signs with the pseudonym **LivresdAvril** points out in the prestigious French publication **Babelio** of October 17, 2021 under the title **The Nonsense of Existence and Eternity by Sorin Cerin**, that, I quote: Thank you Editions Stellamaris and La Masse Critique for sending this book. Immersing yourself in a collection of contemporary poetry is a bit like watching a Dogme95 movie after you're tired of success. In short, it hits (often) and surprises (always). In "The Nonsense of Existence and Eternity", the Romanian poet Sorin Cerin tries to put in each poem all his existentialist philosophy, to reconcile the ephemeral and eternity. If this book will not reconcile those who are angry with poetry, it has a special music, a unity of tone (with a recurring lexical field:

"illusions of life and death", "cemeteries of words", etc.), as if the poems they would answer each other, where each was an echo of the previous one. If the texts are sometimes with hidden meanings (with the impression that some are part of automatic writing), dark or political (sharp spikes against the excesses of consumer society), Sorin Cerin fortunately leaves little hope in the second part. I end the quote.[130] The Nonsense of Existence and Eternity contains a number of 154 philosophical poems, which in turn made up two collections of philosophical poems that appeared in Romania and the United States entitled, **The Non-Sense of Existence - Philosophical poems** and **I Believed in the Eternity of Love - Philosophical poems**.

Starting with 2020, Sorin Cerin became a philosopher in the school curriculum, becoming the subject of exams for students.

As a result of recognizing his work, in 2020 Sorin Cerin is admitted as a member **of the Society of French Writers (Société des poètes français)**, the most prestigious and oldest poetry society in France.

volume brings to the fore a original vision concerning the truth (and the illusion), the absolut and the life, into the philosophical conversation of humanity. “What else are we, but a mad dream of an angel, taken up with himself, lost somewhere within the hierarchy of numerology?” (p.5), asks the author, triggering a captivating odyssey, with an opening towards the philosophy of conscience, contextualism and mind philosophy, that is relevant for the critique of the representationalism and postmodernism. Coaxialism is structured in 11 chapters. They may be interpreted in triads.

Therefore, the first three chapters could stand as an introduction to the thematic realm of coaxiology. The first chapter is concerned with “The purpose, the hierarchy, the birth of numerology and of the Primordial Factor ONE”, the second chapter treats “The Instinct, the Matrix, the Order and Disorder, the Dogma”, and the third chapter “The State of the fact, the Opened Knowledge and the Closed Knowledge, the Coaxialism and the Coaxiology”. Then, the next triad would be constituted by the interpretation of three aspects related to human exemplarity, via the chapters entitled “The Print and the Karmic Print, the Geniality”, “Love or the individual Conscience of the Human Being” and “Consciousness or the knowledge in Coaxiology”. And, the last triad, say, of a semantical and hermeneutical nature, approaches “Reflections on philosophy, the Alien within the Being, the Dimension of Life”, “The Semantical Coaxiology” and “The Semantical Truth, the Semantical Knowledge, the Semantical Mirror and the Reason of Creation”. The tenth chapter, named “Semantical Ontology, Neoontology, and Coaxiology, the Semantical Structuring of Our Matrix”, capitalizes on the ideas from the preceeding philosophical architecture. Eventually, the last chapter offers specific

mathematical models of the ideas and concepts that are exposed within the book, along with the relationships among them. In an architecture of philosophical ideas with influences from **Arthur Schopenhauer**, **Friedrich Nietzsche** and **Ludwig Wittgenstein**, the author states the principles of what he labels as the “coaxialism”: 1. The only true philosophy is the one accepting that Man does neither know the Truth, and implicitly, nor philosophy, 2. Man shall never neither know the Absolute Truth nor the Absolute Knowledge, for his entire existence is based on the Illusion of Life, 3. Any philosophical system or philosopher pretending that he or she speaks the Truth is a liar, 4. The Coaxialism is, by excellence, a philosophy that does NOT pretend that it speaks the Truth, yet accepting certain applications sustaining the reference of the Illusion of Life to the Truth, 5. The Essence of the Truth consists in its reflection in the Elements appeared before it, as there are the elements of the Opened Knowledge deriving from the Current Situation, 6.

The Coaxialism accepts the operations with the opposites of the opposites of the Existence, with or without a compulsory reference to such opposites, determining the coaxiology, 7. Each Antithetical has, to the Infinity, another Antithetical, which is identical to it, 8. The farther is an Antithetical situated, that is the more opposites are intercalated (between itself and its Antithetical), the more accentuated the similarities, and the less opposites are intercalated between the two Elements, the more accentuated the dissimilarities, 9. As well as we can conceive Universes without a corresponding substrate into the Existence, we can conceive Knowledge without a corresponding substrate into the essence, that is, without a subject, 10. The Factor is going to be always the opposite of the infinity to which it would relate as a finite quantity,

SORIN CERIN
- THE ALIENATION OF THE ABSURD -

the same way as the Knowledge relates to the lack of knowledge, and Life, to Death. Within a Coaxial perspective, the Factor shall be an equivalent to God, the Unique Creator, and yet Aleatory in relationship with its worlds 11. Within the Worlds of each Creator, unique and Aleatory Factor are to be reflected all the other Creators, all the unique and Aleatory Factors, as numbers, starting from ONE, that is the Primordial Factor, all the way to the Infinite minus ONE Factors of Creation, all Unique and Aleatory. (p.5-7) Certainly, someone may ask how is such a unitary cuantics going to be sustained? But to rise seriously such a question would mean to miss the point that here we have mathematical metaphors, suggestive models, and not a calculus leading to the Metaphysical Truth (which would at the same time contradict the very coaxiological principles). The bounty of capital letters and underlining in the text speak volumes of the American experience of the author, emphasising as well, with a certain irony, the endeavour to capture meaning, the thirst for absolute, for perfection, for the Truth and for the pure idea, central to all philosophies. Thus, given the following quote, I can at once offer exemplification for the above observation and clarify a column-idea of this intriguing work: “The Coaxiology is a philosophy capable of determining in depth the importance of the Factor (...) – which is also a number, I have to note, among other aspects it provided. It is produced by the Essence of an Element of the Matrix Status Quo, or by the Instinct. (...) The Factor is going to be the demiurge who, via his own capacity of consciousness should include in himself always new and newer Elements of the Closed Knowledge, also assessing, though, without knowing them into detail, Elements of the Opened Knowledge. (...) Man is such a Factor despite the fact that he is situated hierarchically much lower in comparison to the Great

Creators.” (p.51-2) The author explains the coaxial (and eventually, structuralist) manner to investigate the world, as a paradoxical mix of good and evil, divine and demonic, humane and rational, a mix giving birth to the Illusion of Life and being sustained, grace of a feed-back, precisely by this Illusion of Life. (P.53 sq.) “Don’t you know that only in the lakes with muddy bottom the water-lily blossom?” was asking, the 20th century Romanian philosopher, **Lucian Blaga**, rhetorically, and already “coaxial”. The philosophical poetry of Mihai Eminescu is consecrated to the illusion of life. It reflects, as an illustration, in the poem “Floare albastr?” (“Blue Flower”, a Romantic motive, and yet, a coaxial motive, that appears within the German literature, at **Novalis**, or at **Leopardi**) the paradoxical marriage of the infinite with the wishes. This is a metaphor for the paradoxical marriage between the philosophical Knowledge, aiming at the absolute and the terrestrial Knowledge, through love, afflicting human’s heart, as a creative factor, stimulated by affection. As well as in his literature, Sorin Cerin accomplishes to express himself capitalizing at once the universal philosophy and on the great Romanian philosophical successes. For example, as she turns the pages of the book, the reader may have glimpses of Arthur Schopenhauer’s philosophy – let us recall that the human being, as a knowing subject, knows himself as a subject, endowed with a will and that he cannot become pure subject of knowledge unless his will vanishes, in order to eliminate the reference to what one can wish in relationship with the knowledge, since the representation is maimed by desire (The World as Will and Representation). The book sends to Nietzsche’s philosophy – see for instance the idea that “The apparent world is the only True one; the ‘real’ world is sheer lie”, from The Twilight of the Idols, ch. 3, aphorism 2. A more sensitive reader would

find analogies with the philosophy of Emil Cioran, in *The Trouble with Being Born*. Coaxialism may recall **Ludwig Wittgenstein** II in that philosophy represents the (re)organisation of what we have always known, while language is to be considered an “activity”, a “game” framed into certain “forms of life”, a summation of different phenomena, maybe related to one another, but in very different manners. As for the “Truth” one may associate the following suggestive line from the *Philosophical Investigations*, Oxford, 1953, 9, § 68: the strength of the thread does not rely in the fact that each fibre goes from end to end but in the overlapping of many fibres. At the same time, the idea of a creative factor “struggling” with the world to draw forth only partial and paradoxical Truths has from the very beginning strong echoes with the philosophy of mystery, as it appears within the work of **Lucian Blaga**. A similar analogy may be made with the figure of the “ironist” (proposed by **Richard Rorty**), at her turn, “struggling” with the world, in order to educate herself into the various vocabularies (read “parallel cultural realities”). The comparison with Lucian Blaga does not stop here, the researcher connoisseur identifying avenues of investigation towards the “Luciferic” versus “Paradisiac” Knowledge dichotomy, in analogy with the closed – opened Knowledge, with the Matrix, with the creative factor, etc. The work is also remarkable given its distinct literary qualities, the intriguing specific philosophical language developed in close relationship to the literary print, a distinguishing note for an interesting philosophical debut"

In this study **Theodor Codreanu** claims that the entire structure of Sorin Cerin's literary work is based on the following aspects of the study, where I quote an excerpt from the study: "for me to reread the Essential Thoughts and to seek the clarification of the invasion of antitheses from aphorisms, reaching the "philosophical system" of Sorin Cerin from the volume **Coaxialism, Coaxiology, Numerology, Neoontology and Neognoseology (Paco Publishing House, Bucharest, 2007)**. This book explains the whole structure of Sorin Cerin's belletristic and aphoristic work. **The author's originality deserves a discussion, knowingly, beyond the impressionist reactions that the author has been diligently looking for in order to legitimize his entry into the Romanian and European cultural and literary canon.** In the pages dedicated to genius, Sorin Cerin considers that genius is not the work of education, of erudition, but of the Primordial Instinct, so that Coaxialism was born from such a beginning, putting in parentheses almost everything that was said in philosophy up to him, focusing on the Original Thought. In other words, to think through yourself, without sources, without erudition. Eminescu himself appreciated the old books for a similar reason. Consequently, Sorin Cerin eliminates intertextuality, his references to other philosophical or thinking systems being rare (Nicolai Hartmann, mentioned with the "operational ontology", Friedrich Nietzsche, in the matter of the Will, Albert Einstein for the introduction of relativism; the Bible, insofar as, it could support his ideas, etc.). Of course, there is a romantic pride hidden here (as an assumption of one's own genius!), that could evoke a form

of individual narcissism on which, ultimately, the "neo-ontology" and "neognoseology" to which it aims. It is not missing from arsenal, the double-romantic, with the obsession of the stranger in us, whom Man has the emancipatory task of discovering, knowing and living in harmony / love with him, so that only then, will the human individual free himself from the God of religions, including from that of Christianity Moreover, only then will his thinking become coaxial.[,,,,,], **Sorin Cerin's philosophical discourse, really interesting, often profound, deserving to attract the attention of the fellow guild members.** [,,,,,], I categorized Sorin Cerin's philosophical, aphoristic and aesthetic discourse as paradoxist. The paradoxism (whose six manifestos were written by Florentin Smarandache), was intended to be, an avant-garde current, to undermine the literature of the old regime, in the '80s, based on the technique of antitheses, paradoxes, oxymoron, etc., with certain cynical / kynical finalities. A variant of paradoxism was cultivated and theorized by Ion Pachia Tatomirescu, but in contrast with Florentin Smarandache, confirming Sorin Cerin's theory of opposites. **Coaxialism seems to be bordering on paradoxism, but it is much more than that, approaching, rather, the dualistic philosophical and religious systems, culminating in Gnosticism and, at first sight, in Cartesian rationalism.** Also, René Descartes, who wanted to be a faithful defender of Catholicism, has been accused of "atheism" and a forerunner of modern European Anthropocentrism. It is, after all, the danger to which any dualism is exposed, so that rationalism risks becoming "mysticism", leading to the utopias of modernity and postmodernity retouched monistic. In the vicinity of Christianity (or parallel to it), dualism took the most eloquent form in Manichaeism

(Mani, 216 - 277, AD, being proclaimed by followers "the new Jesus") and Bogomilism (the Slavic Bulgarian version of Christianity, among 950- 1396, Gnostic form of Orthodoxy, with elements of survival in Cathars and Albigensians). **The antitheses concerned human thought (mythical, religious, philosophical, etc.) from the "beginnings", each thinker, philosophical system, religion trying to solve them in their own way. Sorin Cerin is also trying to find a solution of his own, relying only on his own thought and risking either to rediscover the wheel, either having the good fortune to bring something new. His starting point is "postmodernist," apparently at least under the sign of a radical nihilism: "Nothing is True. Everything is a dream. Reality does not exist [,] as there is no life or death but their Illusion. " (Coaxialism, p. 4). We encounter a first illusion of self-centered thinking, because the author repeats, in his own terms, Nietzsche's famous statement: There are no facts, only interpretations, a phrase that has become the bible of the philosophizing and of the theory of the postmodern history Agnosticism, according to which pure reason has access, only to the phenomenon, never to the noumenon. And yet Sorin Cerin's "interpretation" refers rather to the agnosticism of Immanuel Kant according to whom pure reason has access only to the phenomenon, never to the noumenon. The latter is to be recognized in the phrase Absolute Truth, opposed to the Illusions of Life, to which he recognizes the status of applications to the truth, but, paradoxically, as a lie characteristic of the human being: " Why are they all a lie? Because Man is a lie of the nature of the Factor who conceived him. " (p. 9). And man is called a lie because he forgets " ,completely the true meaning of life [which] is to love" (p. 9). The**

Creator Factor (renaming the Creator transshipped in the language of political correctness !?), admits the author, is love, man forgetting this, although he is destined, by birth, to happiness. The lies, the Illusions of Life (why does Mr. Cerin forget to assimilate or distinguish them from the Indian Maya, where the opposition between samsara and nirvana ends in the emblematic formula: "everything is the suffering, everything is untruth"?), which are the very condition of human existence, are condemned to throw man into bivalent logic, of level 2, as he calls it, so that everything belonging to the sphere of Closed Knowledge is nourished from antitheses. From now on, among many other things, the author could have invoked the Hegelian tradition of solving antitheses by synthesis or that of Eminescu (the antitheses are life in, the hypostases, of the monstrous or reconciliation), continuing with the transfigured antinomies of Blaga, with Lupascian opposites solved at the level to the third matter (state T), but he prefers an boundless dualism, subject to Hierarchy: "Every Opposite has at Infinity another Opposite identical with it." (p. 5). The wording seems a contradiction in terms (another farce played by language?), because it is not, however, about the symmetry of parity, but the one of contrast, both being caught merging and breaking, numerologically: successively multiplied opposites tend towards resemblance (coincidentia oppositorum, from Cusanus reading?) the farther away they are one (point of departure) from the other (point of arrival); inversely, the contrast is maximum in the case of immediate opposites, of maximum proximity. Opposites thus unfold numerologically, between infinity and 0 / nothing, without 0 ever being reached. In the vast level of the Illusions of Life there can be no question of knowledge (the Truth cannot be known), but only of awareness: "Awareness is the Trace in which the

Form of Knowledge will be poured, with the help of a Element-Mirror." (p. 21). We can ask ourselves again if Sorin Cerin's Trace has tangents with the trace / archi-trace of Jacques Derrida. We do not know. In any case, knowledge through the mirror is aware of the Ego (Person), that stranger we carry in us and from whom Sorin Cerin expects the return to the Primordial Instinct as love, through the Creator Factor that lies in every human being. Do we enter, willingly or unwillingly, into the space of Freudian libido, taken over by the Freudo-Marxist revolution of political correctness? Probably, if we follow the aphorism "The history of mankind was written by sex." (Essential thoughts, Paco Publishing House, Bucharest, 2013, p. 134). Hard to say again. Instinct is defined by the author as "the first image of Order" (Coaxialism, p. 27), so of Hierarchy, the entropy being the reverse of Instinct. The author speaks of Matrix and Purpose, our universe being self-caused: "in the beginning it was the effect of its own cause" (p. 30), which determines him not to believe in the popular Big Bang theory, because, it would be the product of Logical Coefficient 2 (p. 28). But his whole construction is based on bivalent logic, which throws us into a labyrinth of the contradictions. Is it an exhortation not to give credence to one's own construct? The precautionary measure comes from the fact that he does not assimilate his philosophy in search of the Absolute Truth: "Any philosophical system or philosopher who claims to tell the truth is a liar." (p. 4). Without seeking the truth, coaxialism believes in finding only the axis between antitheses that would ontologically legitimize both antitheses (neo-ontology). We would be deluded if we thought that Sorin Cerin is approaching the transdisciplinary method, looking for the point between two levels of Reality, beyond good and evil, as Nietzsche would say. His philosophy is meant

to be a kind of secular, numerological monotheism, like the one God of the Old Testament, but paradoxically, dualistic, because God without the Devil does not exist! This hybrid could be included in the monist-dualistic category named by Ioan Petru Culianu. (Cf. *The Dualist Gnosés of the West*, translated from French, by Tereza Culianu-Petrescu, second ed., Polirom Publishing House, Iași, 2002, p. 20). Coaxiology is called the science of opposites (p. 46), and Coaxialism - "a new philosophy that superimposes Knowledge on the substratum that belonged to Existence by attributing it to other opposites of it [,] but also to Existence implicitly." (p. 45). One is the Creator Factor who gives birth to its Opposite, that is, God on, the Devil. Number One is the Instinct "which is in Everything and in All" (p. 34). Absolute Truth is related to Open Knowledge to which Closed Knowledge of people does not have access. There would be, according to the model of the Creator Factor, innumerable Creators, consonant with what Blaga called the creative destiny of man. And in Sorin Cerin's thinking there is a lot of talk about destiny. Every Great Creator and Unique Incidentally, has an open knowledge (the Absolute Truth) and a closed one, subject to the lie, to the Illusions of Life. Like the postmoderns, Sorin Cerin claims that, in his system, the traditional ontology is abandoned, "it loses absolutely any status, but all these opposites are coaxial, ie they have a common axis having a common denominator in the idea of substratum, whether it is mental or of any other nature." (p. 47). In fact, by coaxial, the author understands the ontological equality of opposites, on the numerological background of the One, that dualistic monism that Ioan Petru Culianu was talking about. His God is dyadic, not Trinitarian, as in Christianity. The numerical identity of opposites (infinite on the scale of logical levels) is always "an infinity minus One", "we being

at Level 2 of Logic" (p. 49). I think that this is the inevitable risk of Sorin Cerin's neo-ontology: the reduction of man, implicitly of divinity, at the level of bivalent logic. Being a Cartesian, he conceives a doimic God, totally ignoring that God is Trinity. Hence the devastating temptation to put the Devil on the same level as God, falling back into a Gnostic heresy of the kind of Bogomilism or Manichaeism. This is despite the fact that Sorin Cerin tries to distinguish between Satan and the Devil, although he constantly mixes them, as products, ultimately, by man. Rationalists easily slide into either deism or anthropocentric neo-humanism, with tendency to deny religions, as happens to Sorin Cerin. " end quote.

The Coaxialism: Philosophical system of Sorin Cerin

The Principles of the Coaxialism

The principles of Coaxialism are published starting with page 13 of the book: Sorin Cerin: **The Coaxialism - Final Edition**.

1. The only true philosophy is the one accepting that Man does neither know the Truth, and implicitly, nor philosophy.
2. Man shall never neither know the Absolute Truth nor the Absolute Knowledge because his entire existence is based on the Illusion of Life.
3. Any philosophical system or philosopher which will pretend that says the Truth is liar.
4. The Coaxialism is, by excellence, the philosophy that does NOT pretend that it speaks the Truth, yet that accepts applications which sustain the reporting of the Illusion of Life to the Truth.

SORIN CERIN
- THE ALIENATION OF THE ABSURD -

5. The Essence of the Truth consists in its reflection at the Elements appeared before its, as are those of Open Knowledge coming from the State of Fact.
6. The Coaxialism accepts operation with the opposites of the opposites of the Existence, with or without to be necessary the reporting to it, determining the Coaxiology.
7. Each Opposite has at Infinite another Opposite identical to it.
8. With as, an Opposite, is farther, so, between it and the Element opposable are inserted a larger number of opposites, with so the similarities between them will be more pronounced, and, with as, the number of opposites intercalated between the two Elements, will be smaller, with so, the contrasts between them will be more pronounced.
9. How can we speak of Universes without substrate in Existence, we can speak of the Knowledge without substrate in essence, hence, without subject.
10. The factor will always be the opposite of the infinity, face to which it will report as finite, just as the Knowledge is reported to the Un-knowledge, and the life to Death. In understanding coaxial, the Factor will be equivalent to God, the Unique Creator but and, by chance, face of his worlds.
11. In the worlds of each Creator Factor and Unique by Chance it will reflect all other Creator Factors and Unique by Chance under form of numbers, from ONE, which is the Primordial Factor, up to an infinite minus ONE of the Creator Factors and Unique Chance.
12. The Principles of the state of Conception become implicitly the Principles of the state of Conception of Coaxialism, becoming, and the continuation of the Principles of Coaxialism, which pass the frontier of the Infinite Semantic Mirror of Knowledge.

Thus God is the state of Conception that possesses the Deistic Domain.

13. Any Happening becomes Non-incidentally, if another precedes it.

14. A Happening can not occur, than once through a single Event.

15. The Happening Incidentally, or the Incidentally is the Creation, attributed only to Creators Factors. Thus Numerology is Creation.

16. Creation occurs only once through Happening, being everywhere in Knowledge.

17. All that follows after the Incidentally (Creation) is the Non-incidentally Happening.

18. The Happening that has a precedent in Creation becomes Non-incidentally, being: Destiny.

19. Once with Destiny, the state of Conception delimits from its Creation, becoming the "Infinite Continuum" from Creation and not the one before Creation, thus God is over the Everything and Nowhere, being through Creation and to those before Creation the one that determines among others and the Destiny known by the Primordial Element of Knowledge from always and before the Everything for to be Primordial Element the Knowledge, Word and Symbol in the Everything - Endless, a cause of the Contradiction, which will determine among others from the Infinite: the Creation or the antechamber of Destiny. Creation does not obey to Destiny, being only once, a Happening Incidentally, while Destiny is subject to Creation being a Happening Non-incidentally. Any Happening in Knowledge becomes Incidentally (Creation) if it has no precedent and Non-incidentally (Destiny), if it has precedent. Any Happening as a Primordial Element can not be than only one, a Single Word from the Universal Pure Language, which can be neither Incidentally and nor Non-incidentally,

because it is not subordinated or reflected in some way or another in the Primordial Element of Knowledge, becoming only the Primordial Element of Happening.

20. The God of Man is the Common Element that gave him his appearance, just as the God of other beings are their Common Elements. All these Common Elements of Beings are Typological compared to the Primordial Element of Knowledge, because their Primordial Elements (the Self of Beings) are Neotypological compared to the Primordial Element of Knowledge in the whose worlds are reflected and thus the reflection is made only through a Common Element, which becomes Typological and intermediate at the same time compared to the other two Primordial Elements, of Knowledge and of the Self which are Neotypological between them.

21. The God of Man or of Beings is reflected in the worlds of Creation of the Primordial Factor, of the Creator Factors and Unique Incidentally and of our Creator Factor and Unique Incidentally which by his creative essence becomes the Creator in the worlds where the God of the each Being in part (the Common Element) reflects his own its Typology. Thus God reaches us through the Creation of our Creator Factor as a Creator God, without Man being able to concretely discern his Typological connection with Creation, the God of Man superimposes on the Creator Factor becoming God of Man the Creator Factor which also gives meaning to human typology through Creation. The Creation occurring only once, what follows it is nothing but a glimpse of one portion or another of this Creation through the Infinite Mirror of Knowledge and implicitly of the Illusion given by it. Creation once Created will make room for Destiny, which can not Create than show (reflect, mirror, awareness or discern) the Creation through one way or another.

22. At the origin of Everything will be the First Analogy: Any Primordial Element is always located IN Infinity and never IN its exterior, because if we assign to the Primordial Infinite the notion of Everything, and only from this point of view, never, a Primordial Element will not be able to be outside of the Everything through which and this one is ultimately identified. Thus appears the First Analogy or the Analogy of the Everything. Thus, each Primordial Element will have to be found or to be in All the Other Primordial Elements, even if there are Neotypologies between them, the reflection will be done through a Common Primordial Element that will have a double quality of Typology compared to the two Neotypological Elements between them. Only the Typological Elements between them, can be found some in others.

23. Each Primordial Element is a Word that has a Meaning and Symbol of its, which is reflected as it is in the case of the Knowledge which is also such a Word, or is found, in the case when the Knowledge does not interpose, within other and other Meanings and Symbols, forming the Universal Pure Consciousness built on the Words of Universal Pure Language.

24. Universal Pure Consciousness has no connection in any possible or impossible form with Logic, the latter being a simple instrument used by the Illusion of Knowledge, therefore Universal Pure Consciousness is not based on Logic in any form and nor on Knowledge except in the extent to which this is a simple Primordial Element, hence, a simple Word, from the infinity of Words of Universal Pure Language.

25. At the origin of Everything seen only and only through the prism of Knowledge, follows two other Analogies which are: The Second Analogy or the Analogy of Knowledge, where in this Everything, appears the

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

Semantic, Neosemantic and Periodic as a result of the Lack from Semantic, which from the point of view of Knowledge keeps place of Everything. It is valid only within the Primordial Element of Knowledge. Third Analogy The third analogy is the Analogy of the Denunciation of Predestination, which implies the succession of Events and of course the Event-Phenomenon duplex. These three Analogies are the engine that leads to the development of all the Universes of Knowledge, they being followed by an infinity of other and other Analogies, but reported to other levels from a structural point of view. And this one is valid only within the Primordial Element of Knowledge.

26. The rule of Analogies is: An Analogy always determines it and unconditionally on other, to infinity, structuring the Infinite. At the origin of Everything but only and only from the point of view of Knowledge, there is the Rule of the three Analogies, namely: An Analogy always determines it and unconditionally on other, to infinity, structuring the Infinite, which is defined through the three Analogies, through Everything, Semantic, Neosemantic, Periodic and Denunciation, and, the Denunciation Predestins the Everything in the Mirror of Knowledge, reflecting the Elements of Knowledge from Before It! The Infinite in the Knowledge always appears in the form of Mirror of the Infinite. The Infinite outside the Knowledge is totally different from the one within it, because it no longer has only the characteristics: Semantic, Neosemantic or Periodic, but also others.

27. At the origin of Everything will always be Everything from the back of Everything, because Everything cannot be Endless, like the Endless cannot be Everything, but precisely the Everything- Endless determines the Contradiction.

SORIN CERIN
- THE ALIENATION OF THE ABSURD -

28. The contradiction, Everything -Infinite, is at the base of the "Infinite Continuum".

29. The characteristics of the "Infinite Continuum" are the basis of the Everything and All. These are: Asymptotic Function, Landmark of Negation, Structuralization and Undefinedness.

30. The characteristics of the State of Conception will always be the same with the characteristics of the "Infinite Continuum" and of the Primordial Elements, which by the reflection of these into each other, determine new and new characteristics, such as within the Primordial Element of Knowledge, the Semantic (the Semantic Mirror of the Infinite), the Neosemantic or the Periodic.

31. The words of the Universal Pure Language can be reflected and KNOWN through our Matrix which is the Matrix of the Primordial Element of the Knowledge which and She is in turn a Word from this Universal Pure Language.

32. If the Words of the Universal Pure Language which are and Primordial Elements and Matrices at the same time, would NOT be Known through Our Matrix of the Word and the Primordial Element of Knowledge, so Our Matrix would NO longer be the source of these Words independent of her, not created by it, I repeat, the source term indicates only the way through which these words come and not what namely create them, these would no longer belong to the Universal Pure Language given by this Matrix of Knowledge. Language is an appanage of the Knowledge. Thus the Universal Pure Language seen through the other Matrices-Words-Elements Primordial may no longer be perceived in quality by Universal Pure Language, but Matrix Forms of Expression. These Matrix Forms of Expression are the equivalent of Universal Pure Language but seen through the medium of another Word

SORIN CERIN
- THE ALIENATION OF THE ABSURD -

of this Universal Pure Language, different from the Word - Knowledge.

33. The Matrix Forms of Expression, similar to Universal Pure Language have the same provenance characteristics, referring to the four basic characteristics of the the Everything- Endless, encompass the same EXPRESSION (Universal Pure Consciousness or State of Conception) in their totality, so the terminology of Universal Pure Language can be used further, and on that of Matrix Forms of Expression only when a clear distinction has to be made between the Word- Knowledge as a Primordial Element and its Matrix development and the other Matrices or Words of Universal Pure Language. I have stated that every Creator Factor is a Word of this Universal Pure Language. So it is, just that it is a Word of the Universal Pure Language in and through the medium of the KNOWLEDGE which is not the same with a Primordial Element, because within the Our Matrix only the Knowledge is the Unique Primordial Element, in fact being precisely Our Matrix, which develops in her turn the Instinct, the Absolute Truth and the "Ego" of the Primordial Factor. The Creator Factors are the Totality of Universal Pure Language seen through the Word -Knowledge, from within this Universal Pure Language, thus the Creator Factors do not have the same Symbol and Meaning with the one of the Words of the Universal Pure Language, on which represent them by their reflection in the "Ego" of the Creator Factor, because one it is the Meaning and Symbol of the Word of the Universal Pure Language reflected through the medium of a Matrix (WORD), others are reflected through other Matrices (WORDS), and others are their Meanings and Symbols in themselves, unreflected and indeterminate by any other Matrix (Word).

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

34. The Universal Pure Language is divided into two major groups, namely, in the Matrix Forms of Expression, that is the Universal Pure Language where the Words are Primordial Elements, which define in their entirety the Expression, or the Universal Pure Consciousness defined as the State of Conception, and among these Words is also the Knowledge.

35. The second group is the Matrix Universal Pure Language where each Matrix in part, being a Word and a Primordial Element of the Matrix Forms of Expression develops within them their own Universal Pure Language, as a result of interdependence with the other Words of the Matrix Forms of Expression. Thus within Our Matrix, which is the Word- Knowledge, the Matrix Forms of Expression receive the name of Universal Pure Language, and its Words are found within our Matrix which is, the Word-Knowledge and the Primordial Element-Knowledge, in various hypostasis, depending on how they interact due to the First Analogy with Our Matrix, developing other and other Analogies.

36. The Semantic, the Neosemantic and the Periodic, implicitly the Lack regarded as the motor of the Word (Primordial Element, Matrix) of Knowledge is nothing more than part from the Matrix Universal Pure Language, of the Knowledge. The Semantics, the Neosemantic and the Periodic through the Lack generated by the interdependence between them achieves nothing but a development within the Matrix of the Word-Knowledge, even though these are "before" the Purpose, the Instinct and the Absolute Truth, they are in fact the essence of Our Matrix, which is the Matrix of Knowledge, and the Meanings of each, in part, as well as the symbols of each, in part, respectively, Semantic, Neosemantic, Periodic and Lack, taken as Words of Universal Pure Language regarded

as Matrix Forms of expression are totally different from what we have established through and in Knowledge. The Provenance or Origin from the perspective of Our Matrix which is precisely its Origin, consists precisely in the essence of this Matrix, or of this Word which is composed of Semantic, Neosemantic, Periodic and Lack, which gives this Matrix, its own motor of self-determination in its quality of Knowledge.

37. Through the interdependence of Our Matrix with the Word -Creation, the Primordial Factor, finds in its "Ego" all the Words of what Knowledge defines the Matrix Forms of Expression as being Universal Language. Within other Matrices, (Words, Primordial Elements) the Universal Pure Language can be defined quite differently from how the Word-Matrix -Primordial Element defines it: the Knowledge. All the Words of the Universal Pure Language seen through Knowledge are Matrix Forms of Expression because their totality involves the Expression, which is at the same time and the Universal Pure Consciousness as well as the State of Conception. Why does the same thing have three names? Normally it would be a single name for to simplify the so complicated process which we are discussing. The cause consists precisely in the plurality of the meanings that it has from certain points of view, both the Expression and the Universal Pure Consciousness or the State of Conception. From the point of view of the Expression, there is the significance of enunciation, which becomes implicitly and the Universal Pure Consciousness where its significance acquires other valences, such as those of Self-Personalization of the Everything -Conscious upon its Endless, of self-determination of the Endless - Finished indeterminant, etc., which in their turn, they define the State of Conception.

Mathematical representation of Coaxialism

SORIN CERIN

Philosophical poems

The mathematical representation of Sorin Cerin's philosophical system is reproduced starting with the tenth chapter, page 146 of the book entitled Sorin Cerin: The Philosophical Works of Coaxialism - 2020 Reference Edition . This is the most recent edition of the book that first appeared in 2007 in Bucharest, Romania. The graphic representations are on pages 163, 167, 168 and 169 of the same book. These graphical representations are described in detail in Chapter 11 of this book, entitled Geometric and Mathematical Representation, which begins on page 155. An excerpt from chapter 11:and 12: " The Absolute Truth and Absolute Knowledge being the same for each Infinite in part, positives for the positive Infinite, and, negatives for the negative Infinite, if, and only if, One of these will always be opposite to the other one. It means that the rapport between Absolute Truth, Absolute Knowledge and Creator Factor and Unique by Chance, will be, in the case of positives Universes:

$[(+1)(+1) \text{ Absolute Truth}](\infty-1) = (+2) (\infty-1)$ and
for the negative ones:

$[(-1) + (-1) \text{ Absolute knowledge}](\infty+1) = (-2) (\infty+1).$

As you can see, $(\infty -1)$ and $(\infty +1)$, show us, how the Creator Factor it decreases from each Infinite, on himself with a unit 1, for him determine as finite.

So, the basic rapport, valid both for the negatives infinities as and for the positives ones, becomes:

$(2) (\infty - 1) / (-2) (\infty+1)$

Rapport mathematical which in the logic of your world, may not have a result due to the infinite, thus becoming an undetermined function, where, 2, as I said, represents the sum of the two integers that are Absolute Truth and Absolute Knowledge. Thus, we will have the rapport between the two Integers:

for all the six Multiuniverses. If we will assign to the value (-1) a point on the three axes X, Y, Z which tend to minus infinite, as in (Figure 5), and then we unite, we will get a triangle. As each MultiUniverses is symmetrical with its opposites, will obtained at the level of value 1, from the positive part, the same triangle. If we will unite the sides of respective triangles, the result will be a tetrahedron, ie a polyhedron with triangular bases, believed to be the simplest polyhedron by the binary logic. This tetrahedron is the Sacred Triangular Prism of MultiUniverses of the 6 Pyramid, the place of the Spirituality of Paradise, in which is the Harmonic State of the Personalization of the Existence, see (Figure 5). Because there are six Pyramids in Cube, where each one in part is a MultiUniverse, and Sacred Triangular Prism is between values (+1) and (-1) of the 6 Pyramids, where every Pyramid in part is positioned on the three axes, of the three-dimensionality, X, Y, Z, so, of the Logic Coefficient 2, projected in three-dimensionality, means that each Pyramid, will have her half, from the Sacred Triangular Prism."

The Basics of the Coaxiological Logic and principles of Logical Function

The Principles of Coaxiological Logic called and Logical Function or "Logical Continuum" are as follows:

The first principle of the Logical Function is: "The Tangentiability of Logical Function defines the "Logical Continuum" formed from the "Infinite Continuum" but and from the Unique Expression of Universal Pure Consciousness, thus is redefined compared to the asymptotism of Intangible Forms, and "the Infinite Continuum", includes the Universal Pure Language. Tangentiability is the one underlying the Coaxiological Logic, removing asymptotism, respective the Asymptotic Function, as the basis of the All, and

transforming her into an annex left by Intangible Forms in this All. Thus, through Tangentiability, have resulted common points, and any axiom, characteristic or expression can become at any time a principle of the Logical Function, how any principle can become an axiom, characteristic or expression, because all are one, and one, all, and by principle in Coaxialism is understood a sense that guides this philosophy. "

The second principle of the Logical Function is: "Determination of the parallelism between principles and characteristics, because the characteristics become principles and the principles, characteristics, but also in, to determine the accumulation of other functions within them, making them essential and becoming their essence."

The third principle of Logical Function is: "The Logical Function is responsible for determining, but and for defining through it itself of the Coaxiological Truth."

The fourth principle is: "The relativity and complementarity of the Logical Function is defined through the Coaxiological Truth."

The fifth principle of the Logical Function is: "The Coaxiological Truth, which belongs to the Logical Function, is a Relative Truth, Neosemiotoc, Substitutive, Motivating and Complementary, and it is defined in its totality by the Logical Function, without the Logical Function being defined in its totality through the Coaxiological Truth.")

The Transcendental Coaxiological Mathematics Sorin Cerin uses in his books, **Sorin Cerin: The Coaxialism - Final Edition** (pag.110) as well as in, **The Transcendental Coaxiological Mathematics** (pag.9) the term Transcendental Coaxiological Mathematics, which he defines as follows:

"Transcendental Coaxiological Mathematics gives each number not only an abstract identity, but, a living one, due to the Imprint that each Number leaves, both in our surrounding Universe and in other Universes, whether they are parallel or not. This Imprint is due to the fact that each Number in turn represents a Creator Factor and Unique Incidentally, which represents the meaning of a certain Word therefore Understood, which in turn is part of the Universal Pure Language. The totality of the Words from the Universal Pure Language, constitutes the Unique Expression of the Universal Consciousness. These Imprints can be identified, to some extent, by Transcendental Numbers or by Transcendental Functions which prove that certain values cannot be changed to obtain some ideational representations, such as the example circle, whose coordinates are definitively influenced by the transcendental number π (**Pi**), i.e. **3.14**. In the future, surely many Transcendental Numbers will be discovered that will help Mankind to identify through Mathematics not only abstract representations, but even states of soul. Each Number represents a different identity depending on the Universe in which it is located. In the essence of each Number is the Creator Factor and Unique Incidentally which governs it, essence that defines the soul of the respective Number, that is of the Creator Factor and Unique Incidentally that represents the Number in question. **Transcendental Coaxiological Mathematics** is the one that defines the processes, of the Universal Pure Language, whose Words, in turn, are each, in part, the expression of a Creator Factor and Unique Incidentally, that is, of a Number, whose totality, defines the Universal Unique Consciousness. Through **Transcendental Coaxiological Mathematics**, the science of mathematics becomes from an abstract discipline, a living one, which

receives soul, which in turn gives to mathematics and a humanistic side. Thanks to **Transcendental Coaxiological Mathematics** in the future we will be able to talk and about a mathematics of spiritual feelings, such as Religion, Love, Hate, Happiness, Sadness, Pain, Pride, Courage, etc. Transcendental Coaxiological Mathematics will be able to solve many mysteries of the human soul in the future, being the only link that can build a bridge between us and the Truth that is so Unknown to us because everything we live and feel is due to the Illusion of Life. **Transcendental Coaxiological Mathematics** will be the literature of the future of Artificial Intelligence. At the basis of **Transcendental Coaxiological Mathematics** is Semantic Coaxiology, but also Coaxiological Logic, these fields of Coaxialism. Transcendental numbers, such as the number π (**Pi**), for example, prove to us concretely that **Transcendental Coaxiological Mathematics** exists by the fact that there is a link of concrete causality between the geometrical representation of the circle and the transcendental number π (**Pi**). The number π (**Pi**), can never be, neither smaller, but nor larger than 3.14 to become operational in the calculations related to the circle. While the circle is a geometric figure that has an active role in human knowledge and feeling. Here is one of the links that proves to us that **Transcendental Coaxiological Mathematics** exists and that it only needs to be developed. Through my philosophical works I have tried to lay the foundations of what **Transcendental Coaxiological Mathematics** means from a philosophical point of view and how it can be determined. The principles of my philosophical system called **Coaxialism** as well as those of **Coaxiological Logic** are in law and de facto in turn the basic principles of **Transcendental Coaxiological Mathematics**. **Transcendental Coaxiological**

Mathematics is a bridge between us, who are lost in the Illusions of Life, without knowing the Absolute Truth. In transcendental reality there are an infinity of transcendental numbers, only we cannot know yet. There are an infinity of transcendental numbers, because there are an infinity of geometric shapes. Each geometric shape must have a transcendental number that can recognize their characteristics. The transcendental numbers that are revealed to us are just some of their infinity, which would exist in reality. Every object, thing, phenomenon or physico-chemical process that surrounds us is the work of transcendental numbers, which one day we will discover with the help of Artificial Intelligence. Only then will we be able to talk about **Coaxiological Psychology**, the one which will become the basic branch of **Transcendental Coaxiological Mathematics**.

Thus, by definition, Coaxiological Psychology is the field of psychology that deals with those forms of cognitive, affective and volitional embodied by transcendental numbers and functions as products of Transcendental Coaxiological Mathematics based on the principles of Coaxialism and Coaxiological Logic. Even a poem or a song will be understood through transcendental numbers and **Transcendental Coaxiological Mathematics**. The time will come when the letters that make up literary pages can be replaced with numbers, which we will understand and feel same like some words, only that for this we will have to develop our own brain on another level. A thing that is possible with the help of Artificial Intelligence. In the future, Transcendental Functions and Transcendental Numbers will be the ones that will form the backbone of **Transcendental Coaxiological Mathematics** in relation to the process of Knowledge, a field that will have to be developed,

especially by Artificial Intelligence. What is known so far about these **Transcendental Functions**, according to the Encyclopedia Britannica, is that, I quote: " In mathematics, a **transcendental function** is an analytic function that does not satisfy a polynomial equation, in contrast to an algebraic function In other words, a **transcendental function** "transcends" algebra in that it cannot be expressed in terms of a finite sequence of the algebraic operations of addition, subtraction, multiplication, division, raising to a power, and root extraction" end quote. Examples of transcendental functions include the exponential function, the logarithm, and the trigonometric functions...." end quote.

Criticism of the work of philosophical aphorisms

One of the most prestigious and selective Romanian publishing house Eminescu in the Library of Philosophy published in autumn 2009 its entire sapiential works including all volumes of aphorisms published before and other volumes that have not seen the light to that date, in Romanian language. All the volumes in this edition of the collection of wisdom add up to a number of 7012 aphorisms. In this book appear for the first time works of aphorisms: Wisdom, Passion, Illusion and reality and revised editions: Revelations December 21, 2012, Immortality and Learn to die. Gheorghe Vladutescu. Professor at the University of Bucharest. member of the Romanian Academy,he mentioned that,I quote: "Sapiential literature has a history perhaps as old writing itself. In 2014, the entire aphoristic work of the author until then is published, under the title of Wisdom Collection - Complete Works of Aphorisms - Reference Edition, a collection containing 11486 aphorisms previously published in 14 volumes, included in that publication. This work, published in 2014 in Romanian and English, containing 14 volumes of aphorisms published before 2014 and at other publishers. This book was partially translated in 2020, and in Bulgarian by Sveta na Knigite publishing house . One of the most representative romanian literary critic, **Ion Dodu Balan**, Professor at the **University of Bucharest** considered that Sorin Cerin: "Modern poet and prosiest, essays and philosophic study's author on daring and ambitious themes like immortality, ephemerid and eternity, on death, naught, life, faith, spleen. Sorin Cerin has lately approached similar fundamental themes, in the genre of aphorisms, in the volumes: Revelations, and Immortality. Creations that, through the language of literary theory, are part of the sapient creation, containing aphorisms, proverbs, maxims etc. which „sont les echos de l'experience", that makes you wonder how such a young author can have such a vast and varied life experience, transfigured with talent in hundreds of copies on genre of wisdom. As to fairly appreciate the sapient literature in this two volumes of Sorin Cerin, I find it necessary to specify, at all pedantically and tutoring, that the sapient creation aphorism is related if not perfectly synonymous, in certain cases to the proverb, maxim, thinking, words with hidden meaning, as they are ... in the Romanian Language and Literature. **Standing in front of such a creation, we owe it to establish some hues, to give the genre her place in history.** The so-called sapient genre knows a long tradition in the universal literature, since **Homer** up to **Marcus Aurelius, François de La Rochefoucauld, Baltasar Gracian, Arthur Schopenhauer** and many others, while in Romanian literature since the chroniclers of the XVII

and XVIII century, to **Anton Pann, Constantin Negruzzi, Mihai Eminescu, Nicolae Iorga, Garabet Ibrăileanu, Lucian Blaga and George Călinescu** up to **C.V. Tudor** in the present times. The great critic and literary historical, Eugen Lovinescu, once expressed his opinion and underlined “the sapient aphoristic character”, as one of the characteristics that creates the originality of Romanian literature, finding its explanation in the nature of the Romanian people, as lovers of peerless proverbs. Even if he has lived a time abroad, Sorin Cerin has carried, as he tells us through his aphorisms, his home country in his heart, as the illustrious poet Octavian Goga said, „wherever we go we are home because in the end all roads meet inside us”. In Sorin Cerin’s aphorisms, we discover his own experience of a fragile soul and a lucid mind, but also the Weltanschauung of his people, expressed through a concentrated and dense form. Philosophical, social, psychological and moral observations. Sorin Cerin is a “moralist” with a contemporary thinking and sensibility. Some of his aphorisms, which are concentrated just like energy in an atom, are real poems in one single verse. Many of his gnomic formulations are the expression of an ever-searching mind, of a penetrating, equilibrated way of thinking, based on the pertinent observation of the human being and of life, but also of rich bookish information. Thus, he dares to define immortality as “moment’s eternity” and admits to “destiny’s freedom to admit his own death facing eternity”, “God’s moment of eternity which mirrors for eternity in Knowledge, thus becoming transient, thus Destiny which is the mirror image of immortality”. “Immortality is desolated only for those who do not love”, “immortality is the being’s play of light with Destiny, so both of them understand the importance of love”. Nevertheless, the gnomic, sapient literature is

difficult to achieve, but Sorin Cerin has the resources to accomplish for the highest exigency. He has proved it in his ability to correlate The Absolute with Truth, Hope, Faith, Sin, Falsehood, Illusion, Vanity, Destiny, The Absurd, Happiness, etc. A good example of logic correlation of such notions and attributes of The Being and Existence, is offered by the Spleen aphorisms from the Revelations December 21, 2012 volume. Rich and varied in expression and content, the definitions, valued judgments on one of the most characteristics state of the Romanian soul, The Spleen, a notion hard to translate, as it is different from the Portuguese “saudade”, the Spanish “soledad”, the German “Sehnsucht”, the French “melancolie” and even the English “spleen”. Naturally, there is room for improving regarding this aspect, but what has been achieved until now is very good. Here are some examples which can be presumed to be „pars pro toto” for both of his books: „Through spleen we will always be slapped by the waves of Destiny which desire to separate immortality from the eternity of our tear”, „The spleen, is the one that throws aside an entire eternity for your eyes to be borne one day”, „The spleen is love’s freedom”, „The spleen is the fire that burns life as to prepare it for death” end quote. Most of the aphorisms that make up the Collection of Wisdom are true philosophical essays, as stated by Professor **Florentin Smarandache**. This fact classifies Sorin Cerin as an important essayist. PhD Professor **Florentin Smarandache**, mathematician, at **University of New Mexico, United States** underlined about the aphoristic work of Sorin Cerin, in the magazine Destine literare, no. 39, p. 92, July-October 2016, under the title, An Expatriate and Repatriated, Romanian Writer, that, we quote: "I read with interest the volumes of aphorisms and soul of the writer Sorin Cerin. I have special affinities for the literary men who have known exile, who they have been in the same situation as the undersigned. After the coming of the miners, he emigrated to the United States, where he lived for a few years, then returned to Romania. Mr. Cerin, born in 1963, in Baia Mare, studied at the Institute of Italian Language and Culture in Bucharest. He is currently an honorary member of the Canadian Association of Romanian Writers. He started with poetry in 1986, and in volume with the novel Destiny in 2003. Lately he has dedicated himself to aphorisms and philosophical meditations (the logic and coaxiological phenomenology). Many critics have highlighted the value of his writings, such as Adrian Dinu Rachieru (—citable formulations), Al. Florin Tene (—the deep meanings of revelations), Maria Ana Tupan (—the paradoxical mixture of despair and energy), Ion Vlad (—reflexivity is dominant in his creation), Cornel Moraru (—prophet of nothingness), Theodor Codreanu: —Sorin Cerin is a paradoxist aphoristic thinker - with whom I fully subscribe. Criticism of the work of philosophical poetry

PhD Professor **Ştefan Borbély**, at the **Babeş-Bolyai University of Cluj-Napoca**, emphasizes in the Romanian magazine *Contemporanul* (The Contemporary), no. 10, October 2020, on page 5, under the title, **Gnoses of Sorin Cerin**, that: The multitude of phrases written in capital letters (Nobody's World; The Deep Trace of Pain; The Darkness of Loneliness; The Labyrinth of the Absurd, etc.) indicate the existence of a precise conceptual system within the religious-philosophical poetry of Sorin Cerin, which obviously draws its sap from an ethos, of Christian-Gnostic essence, with the remark that, the canonical protagonists of classical Christianity (Jesus, Mary, the Devil, etc.) do not appear in the soteriological discourse of the volume, although the spiritual finality of the approach is beyond any doubt, because the poet constantly invokes, as the final target of his aspiration, Love, the Eye of Dream, of the Perfection or the Path to Absolute, of the Future. The dichotomous regime of the keywords of the volume is also of Christian origin, because within them the Absolute and the Absurd face, as in Manichaeism, for example, the fate of the world is decided by the battle between the Being of the Light and the Prince of the Darkness. I have deliberately mentioned Manichaeism as a possible source of inspiration for the cosmology created by Sorin Cerin, because, like the ancient apocalypse (that is, of the texts-revelation), the poet opposes the dispersion induced by materiality by building his own mythology, very carefully

- THE ALIENATION OF THE ABSURD -

conceptualized. This is what the great masters of early Christianity did, taking over a tradition that came from pre-Christian times, when, caught in the illusions of the versatile, metamorphic worlds (The Prince of Darkness in Manichaeism is also a metamorphic demiurge, able to give Matter the most attractive forms, not to mention the Maya to the Hindus), the scholar built an independent autarchic universe (or myth), which being of spiritual (crystalline) origin, offered him the "temple" necessary for the soteriological exercise. Carefully, then, at every detail of this "temple" (which could be a bamboo grove, a monastery in newer times or even a Book), the scholar purified himself with each pebble he placed on the wall of his edifice, finally covering himself with it as if he were doing it with a halo of light. Sorin Cerin's poetry contributes, through each new verse, through each new poem or collection, to the construction of such an autarchic (Autarky) spiritual system. Therefore, the poet's terminology has a precise intrinsic logic: when he says that any Cathedral of the Absurd is built with matter taken from death, when he writes about the Subconscious Stranger or the Frozen Words floating around us like thorns of ice, the meaning of these phrases must be sought within the mythographic system created by the poet, and not interpreted by extrapolation. Let us try, therefore, to decrypt the symbolic and narrative structure of this myth, in order to understand its meaning. The universe that the poet evokes in his verses is one of the endings of cosmic cycle, being, therefore, one of eschatological origin. There are, in it, "cemeteries of words," "ruined cathedrals," cluttered dawns, which "crumble," or "broken windows of Heaven," in which "it rains with sharp shards, of moments." We will not find anywhere in the perimeter of this universe, which seems inspired by the ruins suspended in ether, of the

SORIN CERIN
- THE ALIENATION OF THE ABSURD -

Giovanni Battista Piranesi, no space of compensation or refuge, the ruin and the dispersion being ubiquitous. Thus, the black, hopeless geography of the volume suggests bringing the faith into an extreme state, of maceration (Thomas d'Aquino's *acedia*, also interpreted as a torpor), a stage of annulment of being, from which start, further, two alternative paths: that of renunciation and death, respectively that of courage and hope, the purpose of extreme dispersion being to suggest that even in the most prejudicial situations, the life of faith has sufficient inner resources for ascension and "rebirth," because no matter how opaque the world around us would be, there are still, in its deep texture, enough "seeds of love", which to we gather them to build a salvation. Sorin Cerin's poetry appears to us, therefore, as one marked by a paradoxical spiritualist optimism, functioning with the logic of an inverted world. The poet constructs, with fervor and syntactic skill, an anti-world (the world of "cemeteries of words", of frozen meanings, the world of "sharp shards" and the Absurd), which, in the end, is meant to test his faith and to turn him to the redemptive horizon of the Absolute. In quantitative terms, the words and images of the volume belong mainly to the dispersed world, to "loss, cold and indifferent forgetfulness", to the Absurd, that is, to an eschatological climate, which the Faith has the call to transcend and correct. The poet goes, however, even further, proposing a cosmology, of the dualistic type, from the category of those used in Gnosis. Let's try to understand it, starting from the poem in the volume, entitled Where we will be forced to stay:

*We embarked, /on the ship of the Vanity, /with the name of Happiness, /without we knowing, /that the ports in which will dock, /are those of the Pain and Absurd, /followed in the end, /by the one called, Death, /where we will be forced

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

to stay, /forever, /separated from the identity of Love, /what will be stolen from us, /by another Destiny, /what will no longer belong to us, /for to be carried in the distances, /of the Heart of Fire, /of the Eternity of the Moment, /given somewhere sometime, /by your Glances, /now lost, /among the Flowers of Tears, .of the Memories.*

It is not the only place where Sorin Cerin talks about an aboulis, deceptive destiny, in which humanity was "closed", cloistered against its will. In this case, the "ship of vanity" docks in ports with exclusively negative connotations, but it is not at all certain that the passengers wanted such a "cruise", their destiny carrying them adrift, against their own will, for superior reasons, which they cannot control. In another poem in the volume there is a "God of No One", who made the world (or at least part of it) "without understanding" that it must be composed (and) of love. This "careless" demiurge has operated, from the very beginning on a negative axiological selection, stopping people from reaching the values of the Good directly or hiding the positive ones. The axial term of the whole complex is the Subconscious Stranger, "which - the poet writes - we have been forbidden to know".

Consequently, mankind let itself caught in a premeditated cosmic "mistake," which hindered its path to fulfillment, that is, to Love. The Subconscious Stranger appears in several of Sorin Cerin's poems, he having the force of an obsession, with recuperative value. Living in the torn, dispersed universe of "absurd" materiality, the poet does nothing but move away from the Subconscious Stranger, salvation demanding, on the contrary, a path in the opposite direction, towards the recovery of the Subconscious and its putting in harmony with the Absolute. The precondition of "return" (an essential term for Gnosis) represents it, the internalization of Love: the sharing, from its substance, the

SORIN CERIN
- THE ALIENATION OF THE ABSURD -
Philosophical poems

preparation of transfiguration. Thus, having all the constitutive elements of the poet's personal poetic mythology, we can only reconstruct it. The starting point is, as in Gnosis, the existence of a "Foreign God" (called by the poet, the God of No One), who mispronounced, "carelessly" the Words of Genesis, revealing - without wanting, probably - a world unilaterally abstract, "absurd," in which the human spirit is put to the test. The will does not help them either, as we have seen that it happens with the metaphor of the drifting ship, because the world was created from the beginning wrong, with the normal meanings reversed. The major symbol of the volume expresses, therefore, a metaphysical trap: the human being is caught in an ironic "game", of eschatological type, from which, apparently, he has no way out. But the impasse turns out to be only apparent, because the builder of his own sublime edifice, that is, the poet, has specific, soteriological powers, through which the gate of salvation opens. All these powers are anti-systemic, ie anti-eschatological. Did "God of No One" put wrong words in the world which he created? The poet's purpose is to find the true ones - and to write them, in order to make them accessible and to those around him. Has the world headed, unknowingly, to wandering, dryness, and dispersion?: the poet's purpose is to find meanings, significations and sources of energy, and to show them and to others, in order to replace the fragmented world with the promise of a beautiful, whole, bright one. Did the forces of matter stand in the way of the Absurd and of opacity? The purpose of the poet - and, implicitly, of man - is to plant Love in souls and to return toward the Absolute. Anyone can operate these essentialized retroversions, because, in the end, poet and man mean, in Sorin Cerin's system of thinking, about

the same thing: two qualitatively related hypostases of the religious man, of the One who Believes.

PhD, Professor, **Alexandru Cistelean**, at the **Petru Maior University of Târgu Mureș**, within the heading *Avant la lettre*, under the title, **Between reflection and attitude**, appeared in the *Familia* (magazine) nr.11-12 November-December 2015, pag.16-18, articles, also taken over by *Poezia* magazine from April 2016, where Alexandru Cistelean considers about the poetry of meditation, of Sorin Cerin, that : "From what I see, Sorin Cerin is a kind of volcano textually, in continuously, and maximum eruption, with a writing equally frantic, as and, of convictions. In poetry, relies on gusts reflexive and on the sapiential enthusiasm, cultivating, how says alone in the subtitle of the *Non-sense of the Existence*, from here the poems "of meditation". One approach among all risky - not of today, yesterday, but from always - because he tend to mix where not even is, the work of poetry, making a kind of philosophizing versified, and willy-nilly, all kinds of punishments and morality. Not anymore is case to remind ourselves of the words said by Titu Maiorescu, to Panait Cerna, about "philosophical poetry," because the poet, them knows, and, he very well, and precisely that wants to face: the risk of to work only in idea, and, of to subordinate the imaginative, to the conceptual. Truth be told, it's not for Sorin Cerin, no danger in this sense, for he is in fact a passionate, and never reach the serenity and tranquility Apolline of the thought, on the contrary, recites with pathos rather from within a trauma which he tries to a exorcise, and to sublimates, into radical than from inside any peace of thought or a reflexive harmonies. Even what sounds like an idea nude, transcribed often aphoristic, is actually a burst of attitude, a transcript of emotion - not with coldness, but rather with heat (was also remarked, moreover, manner

more prophetic of the enunciations). But, how the method, of, the taking off, lyrical, consists in a kind of elevation of everything that comes, up to the dignity of articulating their reflexive (from where the listing, any references to immediately, whether biographical or more than that), the poems by Cerin, undertake steep in the equations big existential and definitive, and they not lose time in, domestic confessions. They attack the Principle of reality, not its accidents. Thus, everything is raised to a dignity problematic, if no and of other nature, and prepared for a processing, densified. Risks of the formula, arise fatal, and here, because is seen immediately the mechanism of to promote the reality to dignity of the lyrism. One of the mechanisms comes from expressionist heritage (without that Sorin Cerin to have something else in common with the expressionists), of the capitalized letter, through which establishes suddenly and unpredictably, or humility radicalized, or panic in front of majesty of the word. Usually the uppcase, baptizes the stratum "conceptual" (even if some concepts are metaphors), signaling the problematic alert. It is true, Sorin Cerin makes excess and wastage, of the uppcase, such that, from a while, they do not more create, any panic, no godliness, because abundance them calms effects of this kind, and spoil them into a sort of grandiloquence. The other mechanism of the elevation in dignity rely on a certain - perhaps assumed, perhaps premeditated - pretentious discourse, on a thickening lexical, and on a deep and serious declamation. It is insinuated - of lest, even establishes - and here is an obvious procedure of imaginative recipe, redundant over tolerant. How is and normal - even inevitable - in a lyrical of reflection what wants to coagulate around certain cores conceptual, the modality immediate of awareness of these nodes

conceptual, consists in materializing the abstractions, making them sensual is just their way of to do epiphany lyrical. But at, Sorin Cerin, imaginative mechanics is based on a simple use of the genitive, which materialize the abstractions, (from where endless pictures like "the thorns of the Truth," "chimney sweeps of the Fulfillments," "the brushes of Deceptions" etc. etc.), under, which most often is a button of personification. On the scale of decantation in metaphors we stand, thus, only on the first steps, what produces simultaneously, an effect of candor imaginative (or discursive), but and one of uniformity. Probable but that this confidence in the primary processes is due to the stake on decanting of the thought, stake which let, in subsidiary, the imaginative action (and on the one symbolized more so) as such. But not how many or what ideas roam, through Sorin Cerin's poems are, however the most relevant, thing (the idea, generally, but and in this particular case, has a degree of indifference, to lyricism). On the contrary, in way somewhat paradoxically, decisive, not only defining, it's the attitude in which they gather, the affect in which coagulates. Beneath the appearance of a speech projected on "thought", Sorin Cerin promotes, in fact, an lyricism (about put to dry) of, emotions existential (not of intimate emotions). The reflexivity of the poems is not, from this perspective, than a kind of penitential attitude, an expression of hierarchies, of violent emotions. Passionate layer is, in reality, the one that shake, and he sees himself in almost all its components, from the ones of blaming, to the ones of piety, or tenderness sublimated (or, on the contrary, becoming sentimentalist again). The poet is, in substance, an exasperated of state of the world and the human condition and starting from here, makes exercises with sarcasm (cruel, at least, as, gush), on account of "consumer society"

or on that of the vanity of "Illusions of the Existence". It's a fever of a figures of style that contains a curse, which gives impetus to the lyrics, but which especially highlights discursive, the exasperation in front of this general degradation. So general, that she comprised and transcendental, for Sorin Cerin is more than irritated by the instrumentalization of the God (and, of the faith) in the world today. Irritation in front of corruption the sacred, reaches climax, in lyrics of maximum, nerve blasphemous ("Wickedness of Devil is called Evil, / while of the God, Good. ", but and others, no less provocative and" infamous " at the address the Godhead); but this does not happen, than because of the intensity and purity of his own faith (Ștefan Borbély highlighted the energy of fervor from the poetry of Cerin), from a kind of devotional absolutism. For that not the lyrics, of challenge and blame, do, actually Cerin, on the contrary: lyrics of devotion desperate and passionate, through which him seeks "on Our True God / so different from the one of cathedrals of knee scratched / at the cold walls and inert of the greed of the Illusion of Life ". It is the devotional fever from on, the reverse, of imprecations and sarcasm, but precisely she is the one that contaminates all the poems. From a layer of ideals, squashed, comes out, with verve passionate, the attitudes, of Cerin, attitudes eruptive, no matter how, they would be encoded in a lyrical of reflections. "

"Paraphrasing it on Titu Maiorescu, harsh critical of the diminutives cultivated by Vasile Alecsandri, you can not say than that poetry resulting from such notation is also low (to the cube, if enumeration stops at three). The cause identified by Magda Cârnelci, would be the lack of inspiration, that tension psychical, specific the men of art, an experience spontaneous, what gives birth, uncontrollably, at creation. It is moment inspiring, in the case of poetry, charged of impulses affective, impossible to defeated rationally, an impulse on that it you have or do not it have, and, of, which is responsible the vocation. desired state, focuses interrogative: "... the capital question that arises is the following: how do we to have access more often, more controlled and not just by accident, to those states intense, at the despised , at those levels, others of ours, for which the poetry has always been a witness (sic!) privileged ". We do not know whom belongs the contempt, but we know that the inspiration is of the poet born, not made. The latter not being than a craftsman and an artist. I have in front three volumes of lyrics of the poet, less known and not devoid of inspiration, Sorin Cerin, ordered in a logical decrescendo, understandable, Non - sense of the Existence, the Great silences, Death, all appeared in 2015, at the Publishing Paco, from Bucharest. After the titular ideas, immediately is striking, and poetic vocabulary of the first poem, and you're greeted with the phrase "Illusion of Life" that spelled with capital letters. It is, in substance, an expression inherited from vocabulary consecrated of the existentialists, enough to suspect what brand will have the poems. Move forward with reading, being curious to see you how the poet remains on same chord of background, and how deep, how seriously lives in this idea, not at all new. And it is not new for that the roots of the existentialism, reformulated modern, draw their sap from the skepticism of biblical, melancholic Ecclesiastes, discouraged, in the tragic consciousness of finitude as destiny. It is the King biblical, an, existentialist avant la lettre. He discovers that " weather is to you be born, and a time is to die", otherwise "all is hunting of wind". What else can be said new in our time, even in personal formula, when the existentialism has been intensively supported philosophically, in centuries XIX, and, XX, from Søren Kierkegaard and up to Jean-Paul Sartre, with specific nuances. A poem in the terms, of the Existentialism status, more can interested the being of the our days, slave of the

visual image and the Internet, only through adaptations or additions updated, complementary the central idea, and not finally, by the power of the return over of the self. It is about what you are trying to achieve the poet Sorin Cerin, leaving us, from the beginning, the impression that he lives the miracle creative, the inspiration. Wanting to guide the reader to search for a specific kind of poetry cultivated in these volumes (with one and the same cover), author subtitled them, *ne varietur* "Poems of meditation", as and are at the level of ideas. But how deep and how personal, is the meditation, you can not say than at the end of reading, when you synthesize what namely aspects of ontology and from what perspective, intellectual and emotional, them develop the poet. Certainly, the existentialist poetry vocabulary universal, recognizable, is now redistributed in an another topic, what leads to combinations surprising of new, some daring, or terribly tough, such as those concerning the church. Reading only one of the three volumes is like as you them read on all, are singing on same chord with minimal renewal from, a poem to another. The poet closes in a unitary conceptual sphere, from here the specific rhetoric. Wherever you open one of the volumes, you are in the center of the universe poetic of the same ideas, the same attitude of skepticism outraged. At the level of language, the same vocabulary, well-tuned with the conceptual sphere, is recombined in new and new phrases with updates related to today's environment, and even immediately of the Being, thrown into the world to atone for the "Original Sin". It is known, because sages said, "Eva's son does not live in a world devoid of wails". The ambition to build a personal meditation, impossible to achieve at the level of poetic vocabulary, already tired, is compensated by the art of combination of the words, without being able to avoid redundant frequency of some

phrases. The most frequent, sometimes deliberately placed and twice in the same poem is "Illusion of Life". Dozens of others keywords, complementary, surprises by ostentatious use, to emphasize the idea of "Non-sense of Existence". Are preferred, series of words written with uppercase: "Moment," "Immortality," "Illusion," "Absurd," "Silence," "Death," "Eternity", "Absolute Truth", "Dream", "Free Will", "Original Sin", "Love", "Loneliness", "Alienation", "God" and many others. The phrase brings here and now, living problematized of the existence is "Consumer Society". Is released from poetry a frenzy of duplication of word, what supports the idea. Often this exuberant energy of rearrangement of words, covers what you looking for in poems composed on one and the same theme, namely, living intense affective of feeling of "illusion of life" inside, not outside. Here, we more mention of manner to distinguish the expressive words spelled with a capital letter. Rain of uppercase tends to flood few basic meanings of the poems. And more there's a particularity, the punctuation. After each verse, finished or not as, understood, grammatical or not, it put a comma; the point is put preferably only after the last verse. Otherwise than biblical Ecclesiastes, our poet, more revolted, than melancholic, do hierarchies of vanities pretty little ordered that you to can follow clear ideas. The significances is agglomerating, in one and the same poem, like Hierarchy of the Vanity. But it's not the only one. Of blame can be contemporary reality which provokes on multiple planes, poet's sensibility. The word "the vanity" is engaged in a combination serious, sharp, put to accompany even the phenomenon of birth of the world, for to suggest, finally, by joins culinary very original, willfully, vulgar, disgust, "nausea", í to Jean-Paul Sartre, left behind by the consciousness of the absurd of existence. poem, Industry Meat Existential: "Plow of the Vanity dig deep, / in the dust of the Existence, / wanting to sow the genes of the Illusion of Life, / for to be born the World, / after a prolonged gestation, / in womb without limits, of the Lie, / that rests on Truth for to exist, /... ravens blacks of the thoughts, / by developing, / A true Industry of the Meat Existential, / beginning, / from steaks of, dreams on the barbecue of the Absurd, / up to, / sausage of highest quality of the Hopelessness. "What you find in this poem: paradox, nonsense, nihilism, disillusionment, dreams made ashes, all this and more will multiply, kaleidoscopic recombine in all creation contained in these volumes.If, the notions and synthetic concepts contained in words maintains their meaning constant, the fate of the "word" is not the same, seems to go toward exhaustion, as and the force of renewal of poetry.Have and the words their fate, apart from poetry, as the poet says. At first, paradoxically, "Autumn sentimental" is forsaken by the "harvests passionate of words" frantically collected, by the temper ignited of the poet in love only of certain words, those from existentialist semantics. Sometimes, "Flocks, of words, / furrow the sky of Memories".In registry changed, the word is tormented as a tool of media, violent, rightly incriminated of poet: "Words lacustrine / cry in pots of Martyrs, / put at the windows of brothels of Newspapers..."Is deplored the fate of the words employed unusual, grotesque: "At butchery of Words, / in the street corner of the Destiny / are sold bones of phrases rotten, / legs of meanings for fried..."And with this fragment I have illustrated the originality resentful word combinations, which give free course the ideas, a poetic attitude provoked by the revolt against the nonsense of existence. Ultimately is metaphorise "the winter of the Words, / which snows over our Days..." and is deplored their fate, the falling "in the Mud, of some Words, /

obscene and full of invective", and finally, their death: "Cemeteries of words are strung in the souls, / what they will and hopes at Resurrection... ". Here the words came back to poetry. But, the word is only the tool what not is only of the poet's, only of his, is the problem of background of existence illusory, perceived as such, in the existentialism terms from the early 21st century. This is the core, the leitmotif of dozens of poems signed by Sorin Cerin, distributed studied, I suppose symbolic numerological, in each volume 77 each, neither more or less. From the seed of this idea generously sown, rises for the poet tired of so much, kneaded thinking: "Herbs of questions what float lazily over the eyelids / of the Sunset, / what barely can keep ajar, / in the horizon of some Answers, / what appear to be migrated toward the cold distances of the Forgetfulness. "The note meditative of these lyrics is not entirely discouraging. The poet is neither depressed nor anxious, because he has a tonic temperament. He always goes from the beginning with undefeated statements the will, to understand, without accepting, as, thus, may to return toward the knowledge of self. In poetic images rare, is outlined a kind of summary of poetic discourse, focused in the poetry The Hierarchy of the Vanity, ended in contemporaneity terms of the absurd. It's a way to renew what was more said, that "we eat absurd on bread." The plural indicates in poet an exponent in the name of man in general, "the granite" signifying the mystery impenetrable, of which is now facing "cane thoughtfully" "climbed up on the rocks of Life / we want to understand the granite as it is, / a reed conscious of self. || Demolish the pillars of Nature of the Illusion of Life, / trying to put in their place, / A Dream far stranger of ourselves. || ruined the Weakness, /... becoming our own wrecks, / what wander to nowhere. ||... of Consumer Society made only to/ watch the Hierarchy of the Vanities? Love that would deserve a comment of the nuances at which send the poetic images, is in the Dream and reality, an: " icon attached to the walls of the cold and insensitive, / of a cathedral of licentiousness, as is the Consumer Society, / which us consumes the lives / for a Sens what we will not him know, never. "Beyond the game of words, is noted, the noun seriously, what cancels altogether the sacredness of the cathedral. It's a transfer of meanings produced by the permanent revolt poured out upon the type of society we live in. Our life, the poet laments in the Feline Existential: "is sells expensive at the counter of the Destiny / for to flavor the Debauchery, / subscriber with card of pleasures, all right / at the Consumer Society." /... "Empty promises / and have lost keys of the Fulfillment / and now make, Moral to the cartel of Laws / alongside the prostitutes politicians, of the moment ". Violent language, as poetic arrows thrown and against terrible degradation of politics, gives free course to the ideas, a type nihilistic rebellion, raised to the rank of principle. Absolutely current target is even more evident when, in the poem, the Game of the Life with Death,, is criminalized in much the same terms, "Consumer Society Famine garden, / as, great athletes, of cutting of incomes / hysterical and false, scales of the Policy, / us skimp sparingly each, Moment... ". Changing the subject, vocable "moment" in relation to "eternity", updates a note from the arsenal of specific words from the language of the great existentialist thinker who was the mystic Kierkegaard. After how attitudes clearly atheist, when it comes to God and the church, in the poems of Cerin, update hardness of language, with particularities of existentialism of Sartre, while Mathematics of the existence and many other poem, us bring back into the cultural memory the image of that

"monde cassé" perceived critical by the frenchman Gabriel Marcel. Perhaps the most dense in complementary concepts the "existence", between the first poems of the first volume, is Lewdness. Are attempts to give definitions, to put things in relationship through inversion with sense, again very serious accusatory, like the one with address at "monastery". Sure, unhappiness of the being that writes such poetry, comes not only from the consciousness of the fall of man in the world under the divine curse, but and from what would be a consequence, rejection, up to the blasphemy of the need for God. The interrogation, from the poetry, Lewdness, which, seems that leaves to the reader the freedom of to give particular answers, it's a trick of the poet aware of what affirms, at masked mode: "The existence is a ghost caught between two dreams, Space and / Time./ Peace will always be indebted to the War with her own / weapons, Vanity of Democracy and Dictatorship./ Which Lewdness has not its monastery and which murder /her democracy?" The poem continues with a new definition of "Existence" as a "gamble", accompanied by "Hope", never left at the mercy of "free will", which would give to man the freedom to change anything. It remains only the freedom of the being to judge her own existence, eternal fenced to can overcome the absurd. Nature demonstrative of the poet him condemns, extroversion, at excesses, that, scatters, too generous what has gathered hardly from the library of his own life and of books. Paradoxically, the same temperament is the source of power to live authentic feeling of alienation and accentuated loneliness, until to feel his soul as a "house in ruins", from which, gone, the being, fallen into "Nothingness", more has chance, of to be, doomed "Eternity". Remain many other comments of made at few words the poet's favorite, written with upper case. But, about, "Love", "God", "Church," "Absurd",

Famous Quotes

Sorin Cerin's aphorisms are published in prestigious anthologies of the world but also in collections of quotes from around the world

Some of his famous quotes:

“Only in the eyes of love you can find infinity.”...

“The soul mate is what we aspire to and like to understand about us, is what we deem to be perfection, purity and endless regarding our own being.”

“Rain drops are not the ones who bring the clouds.”...

“Your eyes will always be closer to your soul than to any other part of your body except the heart.”...

“Where I will find peace other than in oblivion?”...

“The dawn of beauty always comes after night.”

“What can the love in my soul be compared to another wonderful soul which is so far and yet so close of my self? What can this symbiosis between two souls can be? What can love be when you feel you cannot sleep at night, that every drop of dew becomes a crystal in your heart, when every breeze of wind has magical meanings? What can love be when you feel that you want nothing more in this world that to be with the soul you love? But what can love be in other transcendental realities? What about our souls? Are our souls a waterfall, a true Niagara or a smile, a flirt of an angel? Are our souls a mere mood of a fairy or a lightening in a summer rain? Our souls could be all of this and much more. But what really happens in that transcendental reality when we feel we are truly in love, that we love so much that it hurts? That the air in the room is unbreathable, that the sentimental, spiritual or physical distances kill us? What happens when dawn find us sadder than ever, looking for an excuse or an argument

for the person we love so much, our Great Love? What are all these? What are the looks lost in the desert horizons of unfulfilment or those in the eyes that deeply loose each other in the others inside the souls?"
